Skill 03

Find the Argument

What's the Argument?

160 Items	**1-5** Levels	**Find the conclusion, reason, evidence, example, or side comment.** Objective

Essential question. What role does each sentence play in the argument?

This PDF is designed for classroom use. It gives teachers a rigorous introduction to the skill, a repeatable solving routine, likely student confusions, a worked example, and the full XiXteen item set with choice-level feedback.

Generated from the current XiXteen corpus on 2026-10-29.

Skill 03

Find the Argument

What's the Argument?

Find the conclusion, reason, evidence, example, or side comment. Objective	**160** Items	**Levels 1-5** Difficulty bands

Essential question	What role does each sentence play in the argument?
Why it matters	Arguments are built from parts: conclusion, reason, background, example, and side comment. Naming those parts keeps readers from treating every sentence as equally important.
Conceptual core	Finding the argument means mapping the relationship among sentences. Students learn to distinguish conclusion, reason, evidence, example, context, and irrelevant detail. This is a structural skill: the same sentence can be evidence in one argument and conclusion in another. The key is the job it performs in the immediate passage.
Student method	Ask which sentence is being supported, then ask which sentence does the supporting. Conclusion indicators such as therefore help, but the real test is the role the sentence plays.
Analogy	An argument is like a table: the conclusion is the tabletop, and the reasons are the legs. Background facts may be in the room, but they are not holding the table up.
Assessment focus	A good answer identifies the conclusion, reason, or other requested role without being pulled toward the most interesting sentence.

Teaching Sequence

1. Identify the sentence that other sentences are meant to support.

2. Mark evidence or reasons that point toward that conclusion.

3. Treat examples as illustrations unless they are the main point being defended.

4. Ignore signal words if the sentence's actual role points the other way.

Common Confusions To Watch For

1. Students often treat the first fact as the conclusion because it appears first.

2. Students may mistake a topic sentence for an argued conclusion.

3. Students may choose a true background statement even when it is not doing argumentative work.

Teacher Prompts

1. Which sentence answers 'so what should we believe or do?'

2. Which sentence answers 'why should we believe that?'

3. If we removed this sentence, would the argument lose its support, its conclusion, or only some background?

Worked Example

Scenario	A school club says its bake sale raised more money than the car wash, so next month the club should run another bake sale.
Teacher think-aloud	The money comparison supports the recommendation. The conclusion is the action the club should take. The topic is fundraising, but the argument is the move from past result to future plan.
Student takeaway	The conclusion is the supported point; the reason is the support.

Guided Classroom Exercise

Invented case. Use only the facts below; write on paper. Try the steps and check your work before reading the model answer. Different wording can be equally adequate.

Situation. A club member writes: 'Our club meets on Tuesdays. Last month's bake sale earned $300 after costs, while the car wash earned $180. Therefore, we should hold another bake sale next month.'

What To Do

1. Label each sentence background, reason, or conclusion.

2. Draw an arrow from the reason to the conclusion, or write 'reason -> conclusion' using the actual sentences.

3. Explain in one sentence why the Tuesday meeting detail is not support for the fundraising recommendation.

Check before reading the answer. Does your arrow show which statement supports which? The most detailed sentence need not be the conclusion.

Model Answer

Tuesday meetings are background. The $300 versus $180 earnings comparison is the reason. Holding another bake sale is the conclusion. Draw the arrow from the earnings comparison to the recommendation. Meeting on Tuesday supplies no comparison of the two fundraising options.

Why it is adequate. The answer maps the argument's structure and explains why a true detail is not necessarily a reason.

Item Bank

Items are grouped by level. For each item, read the prompt, predict the answer, choose, and then use the feedback and process commentary to examine the reasoning path.

Level 1

Level 1 establishes the clean version of the skill: the cue is direct, the distractors are visible, and the main task is to learn the contrast.

find_argument-001 | Level 1 | Answer A

Prompt. At a meeting about evening bus service for late-shift workers, Riley says, "The new buses were repainted blue. A four-week test with late-shift workers found that late-shift commute complaints fell by 22% compared with the four weeks before the test. Therefore, the city council should extend evening bus service until midnight. The proposal is meant mainly for late-shift workers." Which sentence is Riley's conclusion?

A. The city council should extend evening bus service until midnight. correct	**B.** The new buses were repainted blue. choice
C. The proposal is meant mainly for late-shift workers. choice	**D.** A four-week test with late-shift workers found that late-shift commute complaints fell by 22% compared with the four weeks before the test. choice

Core explanation. The conclusion is Riley's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is A: The city council should extend evening bus service until midnight.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, transportation, d1

A feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

B feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

C feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

D feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

find_argument-002 | Level 1 | Answer B

Prompt. At a meeting about classroom phone lockers, Maya says, "The lockers are installed near the gym. A four-week test with ninth-grade students found that classroom disruption reports fell by 31% compared with the four weeks before the test. Therefore, the school board should require phone lockers during class. The proposal is meant mainly for ninth-grade students." Which sentence is Maya's conclusion?

A. The proposal is meant mainly for ninth-grade students. choice	**B.** The school board should require phone lockers during class. correct
C. A four-week test with ninth-grade students found that classroom disruption reports fell by 31% compared with the four weeks before the test. choice	**D.** The lockers are installed near the gym. choice

Core explanation. The conclusion is Maya's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is B: The school board should require phone lockers during class.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, education, d1

A feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

B feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

C feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

D feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

find_argument-003 | Level 1 | Answer C

Prompt. At a meeting about medication reminder texts for older patients, Sam says, "The text messages use a green pill icon. A four-week test with patients over 60 found that missed-dose reports fell by 18% compared with the four weeks before the test. Therefore, the hospital should send medication reminder texts before evening doses. The proposal is meant mainly for patients over 60." Which sentence is Sam's conclusion?

A. A four-week test with patients over 60 found that missed-dose reports fell by 18% compared with the four weeks before the test. choice	**B.** The text messages use a green pill icon. choice
C. The hospital should send medication reminder texts before evening doses. correct	**D.** The proposal is meant mainly for patients over 60. choice

Core explanation. The conclusion is Sam's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is C: The hospital should send medication reminder texts before evening doses.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, health, d1

A feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

B feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

C feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

D feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

find_argument-004 | Level 1 | Answer D

Prompt. At a meeting about a four-day workweek test for software engineers, Avery says, "The test calendar starts on a Monday. A four-week test with software engineers found that staff resignations fell by 15% compared with the four weeks before the test. Therefore, the company should test a Monday-through-Thursday workweek. The proposal is meant mainly for software engineers." Which sentence is Avery's conclusion?

A. A four-week test with software engineers found that staff resignations fell by 15% compared with the four weeks before the test. choice	**B.** The test calendar starts on a Monday. choice
C. The proposal is meant mainly for software engineers. choice	**D.** The company should test a Monday-through-Thursday workweek. correct

Core explanation. The conclusion is Avery's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is D: The company should test a Monday-through-Thursday workweek.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, workplace, d1

A feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

B feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

C feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

D feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

find_argument-005 | Level 1 | Answer A

Prompt. At a meeting about larger grocery unit-price labels, Taylor says, "The shelf labels use bold black numbers. A four-week test with weekly grocery shoppers found that shopper overpayment complaints fell by 27% compared with the four weeks before the test. Therefore, the grocery chain should add larger unit-price labels on shelf tags. The proposal is meant mainly for weekly grocery shoppers." Which sentence is Taylor's conclusion?

A. The grocery chain should add larger unit-price labels on shelf tags. correct	**B.** A four-week test with weekly grocery shoppers found that shopper overpayment complaints fell by 27% compared with the four weeks before the test. choice
C. The shelf labels use bold black numbers. choice	**D.** The proposal is meant mainly for weekly grocery shoppers. choice

Core explanation. The conclusion is Taylor's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is A: The grocery chain should add larger unit-price labels on shelf tags.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, retail, d1

A feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

B feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

C feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

D feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

find_argument-006 | Level 1 | Answer B

Prompt. At a meeting about late fines on children's books, Morgan says, "The children's-book checkout desk moved six feet. A four-week test with families checking out children's books found that library card renewals rose by 19% compared with the four weeks before the test. Therefore, the library should waive late fines for children's books. The proposal is meant mainly for families checking out children's books." Which sentence is Morgan's conclusion?

A. A four-week test with families checking out children's books found that library card renewals rose by 19% compared with the four weeks before the test. choice	**B.** The library should waive late fines for children's books. correct
C. The children's-book checkout desk moved six feet. choice	**D.** The proposal is meant mainly for families checking out children's books. choice

Core explanation. The conclusion is Morgan's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is B: The library should waive late fines for children's books.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, public services, d1

A feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

B feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

C feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

D feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

find_argument-007 | Level 1 | Answer C

Prompt. At a meeting about two-factor login for site administrators, Casey says, "The login button changed from green to blue. A four-week test with site administrators found that admin account takeovers fell by 44% compared with the four weeks before the test. Therefore, the platform should require two-factor login for site administrators. The proposal is meant mainly for site administrators." Which sentence is Casey's conclusion?

A. The proposal is meant mainly for site administrators. choice	**B.** A four-week test with site administrators found that admin account takeovers fell by 44% compared with the four weeks before the test. choice
C. The platform should require two-factor login for site administrators. correct	**D.** The login button changed from green to blue. choice

Core explanation. The conclusion is Casey's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is C: The platform should require two-factor login for site administrators.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, technology, d1

A feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

B feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

C feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

D feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

find_argument-008 | Level 1 | Answer D

Prompt. At a meeting about brighter streetlights on Maple Street, Jordan says, "The new light poles are made of aluminum. A four-week test with residents on Maple Street found that reported thefts fell by 12% compared with the four weeks before the test. Therefore, the neighborhood association should add brighter LED streetlights on Maple Street. The proposal is meant mainly for residents on Maple Street." Which sentence is Jordan's conclusion?

A. A four-week test with residents on Maple Street found that reported thefts fell by 12% compared with the four weeks before the test. choice	**B.** The proposal is meant mainly for residents on Maple Street. choice
C. The new light poles are made of aluminum. choice	**D.** The neighborhood association should add brighter LED streetlights on Maple Street. correct

Core explanation. The conclusion is Jordan's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is D: The neighborhood association should add brighter LED streetlights on Maple Street.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, public safety, d1

A feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

B feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

C feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

D feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

find_argument-009 | Level 1 | Answer C

Prompt. At a meeting about peer tutoring for first-year statistics students, Riley says, "The tutoring room has new chairs. A four-week test with first-year statistics students found that course pass rates rose by 11% compared with the four weeks before the test. Therefore, the university should expand peer tutoring in statistics. The proposal is meant mainly for first-year statistics students." Which sentence is Riley's conclusion?

A. A four-week test with first-year statistics students found that course pass rates rose by 11% compared with the four weeks before the test. choice	**B.** The proposal is meant mainly for first-year statistics students. choice
C. The university should expand peer tutoring in statistics. correct	**D.** The tutoring room has new chairs. choice

Core explanation. The conclusion is Riley's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is C: The university should expand peer tutoring in statistics.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, education, d1

A feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

B feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

C feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

D feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

find_argument-010 | Level 1 | Answer D

Prompt. At a meeting about calorie labels on restaurant menus, Maya says, "The lunch menus are printed on thicker paper. A four-week test with lunch customers found that dessert orders fell by 16% compared with the four weeks before the test. Therefore, the restaurant group should show calorie labels on printed lunch menus. The proposal is meant mainly for lunch customers." Which sentence is Maya's conclusion?

A. The proposal is meant mainly for lunch customers. choice	**B.** A four-week test with lunch customers found that dessert orders fell by 16% compared with the four weeks before the test. choice
C. The lunch menus are printed on thicker paper. choice	**D.** The restaurant group should show calorie labels on printed lunch menus. correct

Core explanation. The conclusion is Maya's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is D: The restaurant group should show calorie labels on printed lunch menus.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, nutrition, d1

A feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

B feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

C feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

D feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

find_argument-011 | Level 1 | Answer D

Prompt. At a meeting about bank overdraft warning texts, Sam says, "The warning texts arrive from a short code. A four-week test with checking-account customers found that overdraft fees fell by 24% compared with the four weeks before the test. Therefore, the bank should send overdraft warning texts before fees post. The proposal is meant mainly for checking-account customers." Which sentence is Sam's conclusion?

A. The warning texts arrive from a short code. choice	**B.** The proposal is meant mainly for checking-account customers. choice
C. A four-week test with checking-account customers found that overdraft fees fell by 24% compared with the four weeks before the test. choice	**D.** The bank should send overdraft warning texts before fees post. correct

Core explanation. The conclusion is Sam's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is D: The bank should send overdraft warning texts before fees post.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, finance, d1

A feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

B feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

C feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

D feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

find_argument-012 | Level 1 | Answer B

Prompt. At a meeting about timed-entry passes for weekend park trails, Avery says, "The digital passes include a small trail map. A four-week test with weekend trail hikers found that trail crowding complaints fell by 33% compared with the four weeks before the test. Therefore, the park service should use timed-entry passes for weekend trail visits. The proposal is meant mainly for weekend trail hikers." Which sentence is Avery's conclusion?

A. The digital passes include a small trail map. choice	**B.** The park service should use timed-entry passes for weekend trail visits. correct
C. The proposal is meant mainly for weekend trail hikers. choice	**D.** A four-week test with weekend trail hikers found that trail crowding complaints fell by 33% compared with the four weeks before the test. choice

Core explanation. The conclusion is Avery's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is B: The park service should use timed-entry passes for weekend trail visits.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, environment, d1

A feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

B feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

C feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

D feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

find_argument-013 | Level 1 | Answer D

Prompt. At a meeting about free Friday museum admission, Taylor says, "The Friday tickets are scanned at the east door. A four-week test with local families found that family visits rose by 29% compared with the four weeks before the test. Therefore, the museum should offer free admission on Fridays. The proposal is meant mainly for local families." Which sentence is Taylor's conclusion?

A. The Friday tickets are scanned at the east door. choice	**B.** The proposal is meant mainly for local families. choice
C. A four-week test with local families found that family visits rose by 29% compared with the four weeks before the test. choice	**D.** The museum should offer free admission on Fridays. correct

Core explanation. The conclusion is Taylor's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is D: The museum should offer free admission on Fridays.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, culture, d1

A feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

B feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

C feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

D feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

find_argument-014 | Level 1 | Answer C

Prompt. At a meeting about youth soccer concussion checks, Morgan says, "The concussion checklist is printed on yellow paper. A four-week test with youth soccer players found that repeat head injuries fell by 21% compared with the four weeks before the test. Therefore, the sports league should add mandatory sideline concussion checks. The proposal is meant mainly for youth soccer players." Which sentence is Morgan's conclusion?

A. A four-week test with youth soccer players found that repeat head injuries fell by 21% compared with the four weeks before the test. choice	**B.** The concussion checklist is printed on yellow paper. choice
C. The sports league should add mandatory sideline concussion checks. correct	**D.** The proposal is meant mainly for youth soccer players. choice

Core explanation. The conclusion is Morgan's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is C: The sports league should add mandatory sideline concussion checks.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, sports, d1

A feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

B feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

C feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

D feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

find_argument-015 | Level 1 | Answer D

Prompt. At a meeting about same-day donation receipts, Casey says, "The receipt email subject line changed. A four-week test with first-time donors found that donor retention rose by 14% compared with the four weeks before the test. Therefore, the nonprofit should send donation receipts within one day. The proposal is meant mainly for first-time donors." Which sentence is Casey's conclusion?

A. The receipt email subject line changed. choice	**B.** A four-week test with first-time donors found that donor retention rose by 14% compared with the four weeks before the test. choice
C. The proposal is meant mainly for first-time donors. choice	**D.** The nonprofit should send donation receipts within one day. correct

Core explanation. The conclusion is Casey's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is D: The nonprofit should send donation receipts within one day.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, nonprofit, d1

A feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

B feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

C feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

D feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

find_argument-016 | Level 1 | Answer B

Prompt. At a meeting about warehouse ergonomic training, Jordan says, "The training room has a ceiling-mounted projector. A four-week test with warehouse staff found that back-injury claims fell by 20% compared with the four weeks before the test. Therefore, the warehouse should offer monthly lifting-safety and ergonomic training. The proposal is meant mainly for warehouse staff." Which sentence is Jordan's conclusion?

A. The training room has a ceiling-mounted projector. choice	**B.** The warehouse should offer monthly lifting-safety and ergonomic training. correct
C. A four-week test with warehouse staff found that back-injury claims fell by 20% compared with the four weeks before the test. choice	**D.** The proposal is meant mainly for warehouse staff. choice

Core explanation. The conclusion is Jordan's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is B: The warehouse should offer monthly lifting-safety and ergonomic training.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, workplace safety, d1

A feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

B feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

C feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

D feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

find_argument-017 | Level 1 | Answer D

Prompt. At a meeting about apartment-lobby compost bins, Riley says, "The lobby compost bins have foot pedals. A four-week test with apartment residents found that landfill waste from participating buildings fell by 17% compared with the four weeks before the test. Therefore, the city sanitation office should place compost bins in apartment lobbies. The proposal is meant mainly for apartment residents." Which sentence is Riley's conclusion?

A. The lobby compost bins have foot pedals. choice	**B.** A four-week test with apartment residents found that landfill waste from participating buildings fell by 17% compared with the four weeks before the test. choice
C. The proposal is meant mainly for apartment residents. choice	**D.** The city sanitation office should place compost bins in apartment lobbies. correct

Core explanation. The conclusion is Riley's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is D: The city sanitation office should place compost bins in apartment lobbies.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, environment, d1

A feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

B feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

C feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

D feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

find_argument-018 | Level 1 | Answer B

Prompt. At a meeting about private-by-default app profiles, Maya says, "The privacy screen uses a shield icon. A four-week test with new app users found that publicly visible profiles fell by 48% compared with the four weeks before the test. Therefore, the app maker should make new user profiles private by default. The proposal is meant mainly for new app users." Which sentence is Maya's conclusion?

A. The privacy screen uses a shield icon. choice	**B.** The app maker should make new user profiles private by default. correct
C. The proposal is meant mainly for new app users. choice	**D.** A four-week test with new app users found that publicly visible profiles fell by 48% compared with the four weeks before the test. choice

Core explanation. The conclusion is Maya's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is B: The app maker should make new user profiles private by default.. Treat evidence and background as helpers, not as the conclusion itself.

A feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

B feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

C feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

D feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

find_argument-019 | Level 1 | Answer B

Prompt. At a meeting about same-day clinic appointment slots, Sam says, "The appointment cards are white. A four-week test with primary-care patients found that patient no-show rates fell by 13% compared with the four weeks before the test. Therefore, the clinic should reserve same-day appointment slots. The proposal is meant mainly for primary-care patients." Which sentence is Sam's conclusion?

A. The proposal is meant mainly for primary-care patients. choice	**B.** The clinic should reserve same-day appointment slots. correct
C. The appointment cards are white. choice	**D.** A four-week test with primary-care patients found that patient no-show rates fell by 13% compared with the four weeks before the test. choice

Core explanation. The conclusion is Sam's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is B: The clinic should reserve same-day appointment slots.. Treat evidence and background as helpers, not as the conclusion itself.

A feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

B feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

C feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

D feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

find_argument-020 | Level 1 | Answer A

Prompt. At a meeting about seat-zone airline boarding, Avery says, "The gate signs are backlit. A four-week test with domestic flight passengers found that average boarding time fell by 9% compared with the four weeks before the test. Therefore, the airline should board passengers by seat zone. The proposal is meant mainly for domestic flight passengers." Which sentence is Avery's conclusion?

A. The airline should board passengers by seat zone. correct	**B.** The gate signs are backlit. choice
C. The proposal is meant mainly for domestic flight passengers. choice	**D.** A four-week test with domestic flight passengers found that average boarding time fell by 9% compared with the four weeks before the test. choice

Core explanation. The conclusion is Avery's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is A: The airline should board passengers by seat zone.. Treat evidence and background as helpers, not as the conclusion itself.

A feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

B feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

C feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

D feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

find_argument-023 | Level 1 | Answer A

Prompt. At a meeting about weekly call-center script coaching, Casey says, "The coaching slides use blue headers. A four-week test with support agents found that customer complaint rates fell by 18% compared with the four weeks before the test. Therefore, the call center should give support agents weekly script coaching. The proposal is meant mainly for support agents." Which sentence is Casey's conclusion?

A. The call center should give support agents weekly script coaching. correct	**B.** A four-week test with support agents found that customer complaint rates fell by 18% compared with the four weeks before the test. choice
C. The proposal is meant mainly for support agents. choice	**D.** The coaching slides use blue headers. choice

Core explanation. The conclusion is Casey's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is A: The call center should give support agents weekly script coaching.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, customer support, d1

A feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

B feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

C feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

D feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

find_argument-024 | Level 1 | Answer B

Prompt. At a meeting about household water-leak alerts, Jordan says, "The water-leak alert screen includes a blue droplet icon. A four-week test with local homeowners found that average household water use fell by 10% compared with the four weeks before the test. Therefore, the water utility should send automatic household water-leak alerts. The proposal is meant mainly for local homeowners." Which sentence is Jordan's conclusion?

A. The water-leak alert screen includes a blue droplet icon. choice	**B.** The water utility should send automatic household water-leak alerts. correct
C. A four-week test with local homeowners found that average household water use fell by 10% compared with the four weeks before the test. choice	**D.** The proposal is meant mainly for local homeowners. choice

Core explanation. The conclusion is Jordan's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is B: The water utility should send automatic household water-leak alerts.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, utilities, d1

A feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

B feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

C feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

D feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

find_argument-025 | Level 1 | Answer A

Prompt. At a meeting about body-camera activation reminders, Riley says, "The reminder tone is two beeps. A four-week test with patrol officers found that missing-camera-footage reports fell by 35% compared with the four weeks before the test. Therefore, the police department should send body-camera activation reminders before patrol shifts. The proposal is meant mainly for patrol officers." Which sentence is Riley's conclusion?

A. The police department should send body-camera activation reminders before patrol shifts. correct	**B.** The reminder tone is two beeps. choice
C. The proposal is meant mainly for patrol officers. choice	**D.** A four-week test with patrol officers found that missing-camera-footage reports fell by 35% compared with the four weeks before the test. choice

Core explanation. The conclusion is Riley's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is A: The police department should send body-camera activation reminders before patrol shifts.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, governance, d1

A feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

B feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

C feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

D feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

find_argument-026 | Level 1 | Answer C

Prompt. At a meeting about county mail-ballot tracking, Maya says, "The ballot-tracking page uses county colors. A four-week test with mail voters found that phone calls asking ballot status fell by 42% compared with the four weeks before the test. Therefore, the election office should offer online mail-ballot tracking. The proposal is meant mainly for mail voters." Which sentence is Maya's conclusion?

A. A four-week test with mail voters found that phone calls asking ballot status fell by 42% compared with the four weeks before the test. choice	**B.** The proposal is meant mainly for mail voters. choice
C. The election office should offer online mail-ballot tracking. correct	**D.** The ballot-tracking page uses county colors. choice

Core explanation. The conclusion is Maya's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is C: The election office should offer online mail-ballot tracking.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, election administration, d1

A feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

B feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

C feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

D feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

find_argument-027 | Level 1 | Answer A

Prompt. At a meeting about language-learning spaced-review prompts, Sam says, "The review prompts use a bell icon. A four-week test with language learners found that vocabulary retention quiz scores rose by 12% compared with the four weeks before the test. Therefore, the tutoring app should send spaced-review prompts for language vocabulary. The proposal is meant mainly for language learners." Which sentence is Sam's conclusion?

A. The tutoring app should send spaced-review prompts for language vocabulary. correct	**B.** The proposal is meant mainly for language learners. choice
C. The review prompts use a bell icon. choice	**D.** A four-week test with language learners found that vocabulary retention quiz scores rose by 12% compared with the four weeks before the test. choice

Core explanation. The conclusion is Sam's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is A: The tutoring app should send spaced-review prompts for language vocabulary.. Treat evidence and background as helpers, not as the conclusion itself.

A feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

B feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

C feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

D feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

find_argument-030 | Level 1 | Answer C

Prompt. At a meeting about top-of-article correction boxes, Morgan says, "The correction box has a gray border. A four-week test with newsletter readers found that reader trust ratings rose by 7% compared with the four weeks before the test. Therefore, the newsroom should place corrections at the top of articles. The proposal is meant mainly for newsletter readers." Which sentence is Morgan's conclusion?

A. The proposal is meant mainly for newsletter readers. choice	**B.** A four-week test with newsletter readers found that reader trust ratings rose by 7% compared with the four weeks before the test. choice
C. The newsroom should place corrections at the top of articles. correct	**D.** The correction box has a gray border. choice

Core explanation. The conclusion is Morgan's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is C: The newsroom should place corrections at the top of articles.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, media, d1

A feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

B feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

C feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

D feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

find_argument-031 | Level 1 | Answer B

Prompt. At a meeting about clearer farmers market price signs, Casey says, "The stall price signs are laminated. A four-week test with weekend farmers market shoppers found that price disputes fell by 28% compared with the four weeks before the test. Therefore, the farmers market should require clearer price signs at vendor stalls. The proposal is meant mainly for weekend farmers market shoppers." Which sentence is Casey's conclusion?

A. The stall price signs are laminated. choice	**B.** The farmers market should require clearer price signs at vendor stalls. correct
C. A four-week test with weekend farmers market shoppers found that price disputes fell by 28% compared with the four weeks before the test. choice	**D.** The proposal is meant mainly for weekend farmers market shoppers. choice

Core explanation. The conclusion is Casey's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is B: The farmers market should require clearer price signs at vendor stalls.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, local commerce, d1

A feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

B feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

C feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

D feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

find_argument-032 | Level 1 | Answer A

Prompt. At a meeting about hotel quiet-hours text reminders, Jordan says, "The quiet-hours text reminder uses a small moon icon. A four-week test with overnight hotel guests found that noise complaints from guest rooms fell by 30% compared with the four weeks before the test. Therefore, the hotel should send quiet-hours text reminders to hotel guests. The proposal is meant mainly for overnight hotel guests." Which sentence is Jordan's conclusion?

A. The hotel should send quiet-hours text reminders to hotel guests. correct	**B.** A four-week test with overnight hotel guests found that noise complaints from guest rooms fell by 30% compared with the four weeks before the test. choice
C. The quiet-hours text reminder uses a small moon icon. choice	**D.** The proposal is meant mainly for overnight hotel guests. choice

Core explanation. The conclusion is Jordan's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is A: The hotel should send quiet-hours text reminders to hotel guests.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, hospitality, d1

A feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

B feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

C feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

D feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

Level 2

Level 2 keeps the same skill but adds more realistic wording and more tempting distractors.

find_argument-033 | Level 2 | Answer B

Prompt. At a meeting about evening bus service for late-shift workers, Maya says, "The new buses were repainted blue. A four-week test with late-shift workers found that late-shift commute complaints fell by 22% compared with the four weeks before the test. Therefore, the city council should extend evening bus service until midnight. The proposal is meant mainly for late-shift workers." Which sentence is Maya's conclusion?

A. A four-week test with late-shift workers found that late-shift commute complaints fell by 22% compared with the four weeks before the test. choice	**B.** The city council should extend evening bus service until midnight. correct
C. The proposal is meant mainly for late-shift workers. choice	**D.** The new buses were repainted blue. choice

Core explanation. The conclusion is Maya's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is B: The city council should extend evening bus service until midnight.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, transportation, d2

A feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

B feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

C feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

D feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

find_argument-034 | Level 2 | Answer A

Prompt. At a meeting about classroom phone lockers, Sam says, "The lockers are installed near the gym. A four-week test with ninth-grade students found that classroom disruption reports fell by 31% compared with the four weeks before the test. Therefore, the school board should require phone lockers during class. The proposal is meant mainly for ninth-grade students." Which sentence is Sam's conclusion?

A. The school board should require phone lockers during class. correct	**B.** The lockers are installed near the gym. choice
C. The proposal is meant mainly for ninth-grade students. choice	**D.** A four-week test with ninth-grade students found that classroom disruption reports fell by 31% compared with the four weeks before the test. choice

Core explanation. The conclusion is Sam's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is A: The school board should require phone lockers during class.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, education, d2

A feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

B feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

C feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

D feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

find_argument-035 | Level 2 | Answer D

Prompt. At a meeting about medication reminder texts for older patients, Avery says, "The text messages use a green pill icon. A four-week test with patients over 60 found that missed-dose reports fell by 18% compared with the four weeks before the test. Therefore, the hospital should send medication reminder texts before evening doses. The proposal is meant mainly for patients over 60." Which sentence is Avery's conclusion?

A. The proposal is meant mainly for patients over 60. choice	**B.** A four-week test with patients over 60 found that missed-dose reports fell by 18% compared with the four weeks before the test. choice
C. The text messages use a green pill icon. choice	**D.** The hospital should send medication reminder texts before evening doses. correct

Core explanation. The conclusion is Avery's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is D: The hospital should send medication reminder texts before evening doses.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, health, d2

A feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

B feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

C feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

D feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

find_argument-036 | Level 2 | Answer C

Prompt. At a meeting about a four-day workweek test for software engineers, Taylor says, "The test calendar starts on a Monday. A four-week test with software engineers found that staff resignations fell by 15% compared with the four weeks before the test. Therefore, the company should test a Monday-through-Thursday workweek. The proposal is meant mainly for software engineers." Which sentence is Taylor's conclusion?

A. The test calendar starts on a Monday. choice	**B.** The proposal is meant mainly for software engineers. choice
C. The company should test a Monday-through-Thursday workweek. correct	**D.** A four-week test with software engineers found that staff resignations fell by 15% compared with the four weeks before the test. choice

Core explanation. The conclusion is Taylor's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is C: The company should test a Monday-through-Thursday workweek.. Treat evidence and background as helpers, not as the conclusion itself.

A feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

B feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

C feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

D feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

find_argument-037 | Level 2 | Answer B

Prompt. At a meeting about larger grocery unit-price labels, Morgan says, "The shelf labels use bold black numbers. A four-week test with weekly grocery shoppers found that shopper overpayment complaints fell by 27% compared with the four weeks before the test. Therefore, the grocery chain should add larger unit-price labels on shelf tags. The proposal is meant mainly for weekly grocery shoppers." Which sentence is Morgan's conclusion?

A. The shelf labels use bold black numbers. choice	**B.** The grocery chain should add larger unit-price labels on shelf tags. correct
C. A four-week test with weekly grocery shoppers found that shopper overpayment complaints fell by 27% compared with the four weeks before the test. choice	**D.** The proposal is meant mainly for weekly grocery shoppers. choice

Core explanation. The conclusion is Morgan's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is B: The grocery chain should add larger unit-price labels on shelf tags.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, retail, d2

A feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

B feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

C feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

D feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

find_argument-038 | Level 2 | Answer A

Prompt. At a meeting about late fines on children's books, Casey says, "The children's-book checkout desk moved six feet. A four-week test with families checking out children's books found that library card renewals rose by 19% compared with the four weeks before the test. Therefore, the library should waive late fines for children's books. The proposal is meant mainly for families checking out children's books." Which sentence is Casey's conclusion?

A. The library should waive late fines for children's books. correct	**B.** The children's-book checkout desk moved six feet. choice
C. The proposal is meant mainly for families checking out children's books. choice	**D.** A four-week test with families checking out children's books found that library card renewals rose by 19% compared with the four weeks before the test. choice

Core explanation. The conclusion is Casey's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is A: The library should waive late fines for children's books.. Treat evidence and background as helpers, not as the conclusion itself.

A feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

B feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

C feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

D feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

find_argument-039 | Level 2 | Answer D

Prompt. At a meeting about two-factor login for site administrators, Jordan says, "The login button changed from green to blue. A four-week test with site administrators found that admin account takeovers fell by 44% compared with the four weeks before the test. Therefore, the platform should require two-factor login for site administrators. The proposal is meant mainly for site administrators." Which sentence is Jordan's conclusion?

A. The login button changed from green to blue. choice	**B.** A four-week test with site administrators found that admin account takeovers fell by 44% compared with the four weeks before the test. choice
C. The proposal is meant mainly for site administrators. choice	**D.** The platform should require two-factor login for site administrators. correct

Core explanation. The conclusion is Jordan's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is D: The platform should require two-factor login for site administrators.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, technology, d2

A feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

B feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

C feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

D feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

find_argument-040 | Level 2 | Answer C

Prompt. At a meeting about brighter streetlights on Maple Street, Riley says, "The new light poles are made of aluminum. A four-week test with residents on Maple Street found that reported thefts fell by 12% compared with the four weeks before the test. Therefore, the neighborhood association should add brighter LED streetlights on Maple Street. The proposal is meant mainly for residents on Maple Street." Which sentence is Riley's conclusion?

A. A four-week test with residents on Maple Street found that reported thefts fell by 12% compared with the four weeks before the test. choice	**B.** The proposal is meant mainly for residents on Maple Street. choice
C. The neighborhood association should add brighter LED streetlights on Maple Street. correct	**D.** The new light poles are made of aluminum. choice

Core explanation. The conclusion is Riley's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is C: The neighborhood association should add brighter LED streetlights on Maple Street.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, public safety, d2

A feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

B feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

C feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

D feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

find_argument-041 | Level 2 | Answer D

Prompt. At a meeting about peer tutoring for first-year statistics students, Maya says, "The tutoring room has new chairs. A four-week test with first-year statistics students found that course pass rates rose by 11% compared with the four weeks before the test. Therefore, the university should expand peer tutoring in statistics. The proposal is meant mainly for first-year statistics students." Which sentence is Maya's conclusion?

A. The proposal is meant mainly for first-year statistics students. choice	**B.** A four-week test with first-year statistics students found that course pass rates rose by 11% compared with the four weeks before the test. choice
C. The tutoring room has new chairs. choice	**D.** The university should expand peer tutoring in statistics. correct

Core explanation. The conclusion is Maya's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is D: The university should expand peer tutoring in statistics.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, education, d2

A feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

B feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

C feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

D feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

find_argument-042 | Level 2 | Answer C

Prompt. At a meeting about calorie labels on restaurant menus, Sam says, "The lunch menus are printed on thicker paper. A four-week test with lunch customers found that dessert orders fell by 16% compared with the four weeks before the test. Therefore, the restaurant group should show calorie labels on printed lunch menus. The proposal is meant mainly for lunch customers." Which sentence is Sam's conclusion?

A. The proposal is meant mainly for lunch customers. choice	**B.** A four-week test with lunch customers found that dessert orders fell by 16% compared with the four weeks before the test. choice
C. The restaurant group should show calorie labels on printed lunch menus. correct	**D.** The lunch menus are printed on thicker paper. choice

Core explanation. The conclusion is Sam's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is C: The restaurant group should show calorie labels on printed lunch menus.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, nutrition, d2

A feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

B feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

C feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

D feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

find_argument-043 | Level 2 | Answer A

Prompt. At a meeting about bank overdraft warning texts, Avery says, "The warning texts arrive from a short code. A four-week test with checking-account customers found that overdraft fees fell by 24% compared with the four weeks before the test. Therefore, the bank should send overdraft warning texts before fees post. The proposal is meant mainly for checking-account customers." Which sentence is Avery's conclusion?

A. The bank should send overdraft warning texts before fees post. correct	**B.** The warning texts arrive from a short code. choice
C. The proposal is meant mainly for checking-account customers. choice	**D.** A four-week test with checking-account customers found that overdraft fees fell by 24% compared with the four weeks before the test. choice

Core explanation. The conclusion is Avery's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is A: The bank should send overdraft warning texts before fees post.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, finance, d2

A feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

B feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

C feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

D feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

find_argument-044 | Level 2 | Answer B

Prompt. At a meeting about timed-entry passes for weekend park trails, Taylor says, "The digital passes include a small trail map. A four-week test with weekend trail hikers found that trail crowding complaints fell by 33% compared with the four weeks before the test. Therefore, the park service should use timed-entry passes for weekend trail visits. The proposal is meant mainly for weekend trail hikers." Which sentence is Taylor's conclusion?

A. A four-week test with weekend trail hikers found that trail crowding complaints fell by 33% compared with the four weeks before the test. choice	**B.** The park service should use timed-entry passes for weekend trail visits. correct
C. The proposal is meant mainly for weekend trail hikers. choice	**D.** The digital passes include a small trail map. choice

Core explanation. The conclusion is Taylor's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is B: The park service should use timed-entry passes for weekend trail visits.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, environment, d2

A feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

B feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

C feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

D feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

find_argument-045 | Level 2 | Answer C

Prompt. At a meeting about free Friday museum admission, Morgan says, "The Friday tickets are scanned at the east door. A four-week test with local families found that family visits rose by 29% compared with the four weeks before the test. Therefore, the museum should offer free admission on Fridays. The proposal is meant mainly for local families." Which sentence is Morgan's conclusion?

A. The Friday tickets are scanned at the east door. choice	**B.** A four-week test with local families found that family visits rose by 29% compared with the four weeks before the test. choice
C. The museum should offer free admission on Fridays. correct	**D.** The proposal is meant mainly for local families. choice

Core explanation. The conclusion is Morgan's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is C: The museum should offer free admission on Fridays.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, culture, d2

A feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

B feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

C feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

D feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

find_argument-046 | Level 2 | Answer D

Prompt. At a meeting about youth soccer concussion checks, Casey says, "The concussion checklist is printed on yellow paper. A four-week test with youth soccer players found that repeat head injuries fell by 21% compared with the four weeks before the test. Therefore, the sports league should add mandatory sideline concussion checks. The proposal is meant mainly for youth soccer players." Which sentence is Casey's conclusion?

A. The concussion checklist is printed on yellow paper. choice	**B.** A four-week test with youth soccer players found that repeat head injuries fell by 21% compared with the four weeks before the test. choice
C. The proposal is meant mainly for youth soccer players. choice	**D.** The sports league should add mandatory sideline concussion checks. correct

Core explanation. The conclusion is Casey's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is D: The sports league should add mandatory sideline concussion checks.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, sports, d2

A feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

B feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

C feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

D feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

find_argument-047 | Level 2 | Answer A

Prompt. At a meeting about same-day donation receipts, Jordan says, "The receipt email subject line changed. A four-week test with first-time donors found that donor retention rose by 14% compared with the four weeks before the test. Therefore, the nonprofit should send donation receipts within one day. The proposal is meant mainly for first-time donors." Which sentence is Jordan's conclusion?

A. The nonprofit should send donation receipts within one day. correct	**B.** A four-week test with first-time donors found that donor retention rose by 14% compared with the four weeks before the test. choice
C. The proposal is meant mainly for first-time donors. choice	**D.** The receipt email subject line changed. choice

Core explanation. The conclusion is Jordan's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is A: The nonprofit should send donation receipts within one day.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, nonprofit, d2

A feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

B feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

C feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

D feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

find_argument-048 | Level 2 | Answer B

Prompt. At a meeting about warehouse ergonomic training, Riley says, "The training room has a ceiling-mounted projector. A four-week test with warehouse staff found that back-injury claims fell by 20% compared with the four weeks before the test. Therefore, the warehouse should offer monthly lifting-safety and ergonomic training. The proposal is meant mainly for warehouse staff." Which sentence is Riley's conclusion?

A. The training room has a ceiling-mounted projector. choice	**B.** The warehouse should offer monthly lifting-safety and ergonomic training. correct
C. A four-week test with warehouse staff found that back-injury claims fell by 20% compared with the four weeks before the test. choice	**D.** The proposal is meant mainly for warehouse staff. choice

Core explanation. The conclusion is Riley's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is B: The warehouse should offer monthly lifting-safety and ergonomic training.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, workplace safety, d2

A feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

B feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

C feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

D feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

find_argument-049 | Level 2 | Answer C

Prompt. At a meeting about apartment-lobby compost bins, Maya says, "The lobby compost bins have foot pedals. A four-week test with apartment residents found that landfill waste from participating buildings fell by 17% compared with the four weeks before the test. Therefore, the city sanitation office should place compost bins in apartment lobbies. The proposal is meant mainly for apartment residents." Which sentence is Maya's conclusion?

A. The lobby compost bins have foot pedals. choice	**B.** A four-week test with apartment residents found that landfill waste from participating buildings fell by 17% compared with the four weeks before the test. choice
C. The city sanitation office should place compost bins in apartment lobbies. correct	**D.** The proposal is meant mainly for apartment residents. choice

Core explanation. The conclusion is Maya's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is C: The city sanitation office should place compost bins in apartment lobbies.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, environment, d2

A feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

B feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

C feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

D feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

find_argument-050 | Level 2 | Answer D

Prompt. At a meeting about private-by-default app profiles, Sam says, "The privacy screen uses a shield icon. A four-week test with new app users found that publicly visible profiles fell by 48% compared with the four weeks before the test. Therefore, the app maker should make new user profiles private by default. The proposal is meant mainly for new app users." Which sentence is Sam's conclusion?

A. A four-week test with new app users found that publicly visible profiles fell by 48% compared with the four weeks before the test. choice	**B.** The privacy screen uses a shield icon. choice
C. The proposal is meant mainly for new app users. choice	**D.** The app maker should make new user profiles private by default. correct

Core explanation. The conclusion is Sam's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is D: The app maker should make new user profiles private by default.. Treat evidence and background as helpers, not as the conclusion itself.

A feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

B feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

C feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

D feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

find_argument-051 | Level 2 | Answer A

Prompt. At a meeting about same-day clinic appointment slots, Avery says, "The appointment cards are white. A four-week test with primary-care patients found that patient no-show rates fell by 13% compared with the four weeks before the test. Therefore, the clinic should reserve same-day appointment slots. The proposal is meant mainly for primary-care patients." Which sentence is Avery's conclusion?

A. The clinic should reserve same-day appointment slots. correct	**B.** A four-week test with primary-care patients found that patient no-show rates fell by 13% compared with the four weeks before the test. choice
C. The appointment cards are white. choice	**D.** The proposal is meant mainly for primary-care patients. choice

Core explanation. The conclusion is Avery's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is A: The clinic should reserve same-day appointment slots.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, health, d2

A feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

B feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

C feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

D feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

find_argument-052 | Level 2 | Answer B

Prompt. At a meeting about seat-zone airline boarding, Taylor says, "The gate signs are backlit. A four-week test with domestic flight passengers found that average boarding time fell by 9% compared with the four weeks before the test. Therefore, the airline should board passengers by seat zone. The proposal is meant mainly for domestic flight passengers." Which sentence is Taylor's conclusion?

A. A four-week test with domestic flight passengers found that average boarding time fell by 9% compared with the four weeks before the test. choice	**B.** The airline should board passengers by seat zone. correct
C. The proposal is meant mainly for domestic flight passengers. choice	**D.** The gate signs are backlit. choice

Core explanation. The conclusion is Taylor's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is B: The airline should board passengers by seat zone.. Treat evidence and background as helpers, not as the conclusion itself.

A feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

B feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

C feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

D feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

find_argument-053 | Level 2 | Answer B

Prompt. At a meeting about an online apartment repair portal, Morgan says, "The repair portal uses a house logo. A four-week test with apartment tenants found that unresolved repair requests fell by 26% compared with the four weeks before the test. Therefore, the landlord should launch an online apartment repair portal. The proposal is meant mainly for apartment tenants." Which sentence is Morgan's conclusion?

A. A four-week test with apartment tenants found that unresolved repair requests fell by 26% compared with the four weeks before the test. choice	**B.** The landlord should launch an online apartment repair portal. correct
C. The repair portal uses a house logo. choice	**D.** The proposal is meant mainly for apartment tenants. choice

Core explanation. The conclusion is Morgan's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is B: The landlord should launch an online apartment repair portal.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, housing, d2

A feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

B feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

C feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

D feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

find_argument-054 | Level 2 | Answer A

Prompt. At a meeting about fruit placement in a school cafeteria line, Casey says, "The fruit bowls are ceramic. A four-week test with middle-school students found that fruit purchases rose by 23% compared with the four weeks before the test. Therefore, the cafeteria should move fruit bowls to the front of the cafeteria line. The proposal is meant mainly for middle-school students." Which sentence is Casey's conclusion?

A. The cafeteria should move fruit bowls to the front of the cafeteria line. correct	**B.** A four-week test with middle-school students found that fruit purchases rose by 23% compared with the four weeks before the test. choice
C. The fruit bowls are ceramic. choice	**D.** The proposal is meant mainly for middle-school students. choice

Core explanation. The conclusion is Casey's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is A: The cafeteria should move fruit bowls to the front of the cafeteria line.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, food, d2

A feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

B feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

C feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

D feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

find_argument-055 | Level 2 | Answer D

Prompt. At a meeting about weekly call-center script coaching, Jordan says, "The coaching slides use blue headers. A four-week test with support agents found that customer complaint rates fell by 18% compared with the four weeks before the test. Therefore, the call center should give support agents weekly script coaching. The proposal is meant mainly for support agents." Which sentence is Jordan's conclusion?

A. The coaching slides use blue headers. choice	**B.** The proposal is meant mainly for support agents. choice
C. A four-week test with support agents found that customer complaint rates fell by 18% compared with the four weeks before the test. choice	**D.** The call center should give support agents weekly script coaching. correct

Core explanation. The conclusion is Jordan's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is D: The call center should give support agents weekly script coaching.. Treat evidence and background as helpers, not as the conclusion itself.

A feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

B feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

C feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

D feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

find_argument-056 | Level 2 | Answer C

Prompt. At a meeting about household water-leak alerts, Riley says, "The water-leak alert screen includes a blue droplet icon. A four-week test with local homeowners found that average household water use fell by 10% compared with the four weeks before the test. Therefore, the water utility should send automatic household water-leak alerts. The proposal is meant mainly for local homeowners." Which sentence is Riley's conclusion?

A. The water-leak alert screen includes a blue droplet icon. choice	**B.** The proposal is meant mainly for local homeowners. choice
C. The water utility should send automatic household water-leak alerts. correct	**D.** A four-week test with local homeowners found that average household water use fell by 10% compared with the four weeks before the test. choice

Core explanation. The conclusion is Riley's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is C: The water utility should send automatic household water-leak alerts.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, utilities, d2

A feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

B feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

C feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

D feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

find_argument-057 | Level 2 | Answer B

Prompt. At a meeting about body-camera activation reminders, Maya says, "The reminder tone is two beeps. A four-week test with patrol officers found that missing-camera-footage reports fell by 35% compared with the four weeks before the test. Therefore, the police department should send body-camera activation reminders before patrol shifts. The proposal is meant mainly for patrol officers." Which sentence is Maya's conclusion?

A. The proposal is meant mainly for patrol officers. choice	**B.** The police department should send body-camera activation reminders before patrol shifts. correct
C. A four-week test with patrol officers found that missing-camera-footage reports fell by 35% compared with the four weeks before the test. choice	**D.** The reminder tone is two beeps. choice

Core explanation. The conclusion is Maya's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is B: The police department should send body-camera activation reminders before patrol shifts.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, governance, d2

A feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

B feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

C feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

D feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

find_argument-058 | Level 2 | Answer A

Prompt. At a meeting about county mail-ballot tracking, Sam says, "The ballot-tracking page uses county colors. A four-week test with mail voters found that phone calls asking ballot status fell by 42% compared with the four weeks before the test. Therefore, the election office should offer online mail-ballot tracking. The proposal is meant mainly for mail voters." Which sentence is Sam's conclusion?

A. The election office should offer online mail-ballot tracking. correct	**B.** A four-week test with mail voters found that phone calls asking ballot status fell by 42% compared with the four weeks before the test. choice
C. The proposal is meant mainly for mail voters. choice	**D.** The ballot-tracking page uses county colors. choice

Core explanation. The conclusion is Sam's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is A: The election office should offer online mail-ballot tracking.. Treat evidence and background as helpers, not as the conclusion itself.

A feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

B feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

C feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

D feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

find_argument-059 | Level 2 | Answer D

Prompt. At a meeting about language-learning spaced-review prompts, Avery says, "The review prompts use a bell icon. A four-week test with language learners found that vocabulary retention quiz scores rose by 12% compared with the four weeks before the test. Therefore, the tutoring app should send spaced-review prompts for language vocabulary. The proposal is meant mainly for language learners." Which sentence is Avery's conclusion?

A. The proposal is meant mainly for language learners. choice	**B.** A four-week test with language learners found that vocabulary retention quiz scores rose by 12% compared with the four weeks before the test. choice
C. The review prompts use a bell icon. choice	**D.** The tutoring app should send spaced-review prompts for language vocabulary. correct

Core explanation. The conclusion is Avery's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is D: The tutoring app should send spaced-review prompts for language vocabulary.. Treat evidence and background as helpers, not as the conclusion itself.

A feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

B feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

C feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

D feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

find_argument-062 | Level 2 | Answer A

Prompt. At a meeting about top-of-article correction boxes, Casey says, "The correction box has a gray border. A four-week test with newsletter readers found that reader trust ratings rose by 7% compared with the four weeks before the test. Therefore, the newsroom should place corrections at the top of articles. The proposal is meant mainly for newsletter readers." Which sentence is Casey's conclusion?

A. The newsroom should place corrections at the top of articles. correct	**B.** The correction box has a gray border. choice
C. A four-week test with newsletter readers found that reader trust ratings rose by 7% compared with the four weeks before the test. choice	**D.** The proposal is meant mainly for newsletter readers. choice

Core explanation. The conclusion is Casey's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is A: The newsroom should place corrections at the top of articles.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, media, d2

A feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

B feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

C feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

D feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

find_argument-063 | Level 2 | Answer C

Prompt. At a meeting about clearer farmers market price signs, Jordan says, "The stall price signs are laminated. A four-week test with weekend farmers market shoppers found that price disputes fell by 28% compared with the four weeks before the test. Therefore, the farmers market should require clearer price signs at vendor stalls. The proposal is meant mainly for weekend farmers market shoppers." Which sentence is Jordan's conclusion?

A. The proposal is meant mainly for weekend farmers market shoppers. choice	**B.** A four-week test with weekend farmers market shoppers found that price disputes fell by 28% compared with the four weeks before the test. choice
C. The farmers market should require clearer price signs at vendor stalls. correct	**D.** The stall price signs are laminated. choice

Core explanation. The conclusion is Jordan's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is C: The farmers market should require clearer price signs at vendor stalls.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, local commerce, d2

A feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

B feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

C feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

D feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

find_argument-064 | Level 2 | Answer D

Prompt. At a meeting about hotel quiet-hours text reminders, Riley says, "The quiet-hours text reminder uses a small moon icon. A four-week test with overnight hotel guests found that noise complaints from guest rooms fell by 30% compared with the four weeks before the test. Therefore, the hotel should send quiet-hours text reminders to hotel guests. The proposal is meant mainly for overnight hotel guests." Which sentence is Riley's conclusion?

A. A four-week test with overnight hotel guests found that noise complaints from guest rooms fell by 30% compared with the four weeks before the test. choice	**B.** The quiet-hours text reminder uses a small moon icon. choice
C. The proposal is meant mainly for overnight hotel guests. choice	**D.** The hotel should send quiet-hours text reminders to hotel guests. correct

Core explanation. The conclusion is Riley's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is D: The hotel should send quiet-hours text reminders to hotel guests.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, hospitality, d2

A feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

B feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

C feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

D feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

Level 3

Level 3 asks for steadier discrimination: the right answer is still objective, but the wrong answers often sound plausible.

find_argument-065 | Level 3 | Answer C

Prompt. At a meeting about evening bus service for late-shift workers, Sam says, "The new buses were repainted blue. A four-week test with late-shift workers found that late-shift commute complaints fell by 22% compared with the four weeks before the test. Therefore, the city council should extend evening bus service until midnight. The proposal is meant mainly for late-shift workers." Which sentence is Sam's conclusion?

A. The proposal is meant mainly for late-shift workers. choice	**B.** A four-week test with late-shift workers found that late-shift commute complaints fell by 22% compared with the four weeks before the test. choice
C. The city council should extend evening bus service until midnight. correct	**D.** The new buses were repainted blue. choice

Core explanation. The conclusion is Sam's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is C: The city council should extend evening bus service until midnight.. Treat evidence and background as helpers, not as the conclusion itself.

A feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

B feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

C feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

D feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

find_argument-067 | Level 3 | Answer C

Prompt. At a meeting about medication reminder texts for older patients, Taylor says, "The text messages use a green pill icon. A four-week test with patients over 60 found that missed-dose reports fell by 18% compared with the four weeks before the test. Therefore, the hospital should send medication reminder texts before evening doses. The proposal is meant mainly for patients over 60." Which sentence is Taylor's conclusion?

A. The text messages use a green pill icon. choice	**B.** The proposal is meant mainly for patients over 60. choice
C. The hospital should send medication reminder texts before evening doses. correct	**D.** A four-week test with patients over 60 found that missed-dose reports fell by 18% compared with the four weeks before the test. choice

Core explanation. The conclusion is Taylor's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is C: The hospital should send medication reminder texts before evening doses.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, health, d3

A feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

B feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

C feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

D feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

find_argument-068 | Level 3 | Answer A

Prompt. At a meeting about a four-day workweek test for software engineers, Morgan says, "The test calendar starts on a Monday. A four-week test with software engineers found that staff resignations fell by 15% compared with the four weeks before the test. Therefore, the company should test a Monday-through-Thursday workweek. The proposal is meant mainly for software engineers." Which sentence is Morgan's conclusion?

A. The company should test a Monday-through-Thursday workweek. correct	**B.** The test calendar starts on a Monday. choice
C. A four-week test with software engineers found that staff resignations fell by 15% compared with the four weeks before the test. choice	**D.** The proposal is meant mainly for software engineers. choice

Core explanation. The conclusion is Morgan's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is A: The company should test a Monday-through-Thursday workweek.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, workplace, d3

A feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

B feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

C feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

D feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

find_argument-069 | Level 3 | Answer D

Prompt. At a meeting about larger grocery unit-price labels, Casey says, "The shelf labels use bold black numbers. A four-week test with weekly grocery shoppers found that shopper overpayment complaints fell by 27% compared with the four weeks before the test. Therefore, the grocery chain should add larger unit-price labels on shelf tags. The proposal is meant mainly for weekly grocery shoppers." Which sentence is Casey's conclusion?

A. The proposal is meant mainly for weekly grocery shoppers. choice	**B.** The shelf labels use bold black numbers. choice
C. A four-week test with weekly grocery shoppers found that shopper overpayment complaints fell by 27% compared with the four weeks before the test. choice	**D.** The grocery chain should add larger unit-price labels on shelf tags. correct

Core explanation. The conclusion is Casey's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is D: The grocery chain should add larger unit-price labels on shelf tags.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, retail, d3

A feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

B feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

C feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

D feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

find_argument-070 | Level 3 | Answer B

Prompt. At a meeting about late fines on children's books, Jordan says, "The children's-book checkout desk moved six feet. A four-week test with families checking out children's books found that library card renewals rose by 19% compared with the four weeks before the test. Therefore, the library should waive late fines for children's books. The proposal is meant mainly for families checking out children's books." Which sentence is Jordan's conclusion?

A. A four-week test with families checking out children's books found that library card renewals rose by 19% compared with the four weeks before the test. choice	**B.** The library should waive late fines for children's books. correct
C. The children's-book checkout desk moved six feet. choice	**D.** The proposal is meant mainly for families checking out children's books. choice

Core explanation. The conclusion is Jordan's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is B: The library should waive late fines for children's books.. Treat evidence and background as helpers, not as the conclusion itself.

A feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

B feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

C feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

D feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

find_argument-075 | Level 3 | Answer B

Prompt. At a meeting about bank overdraft warning texts, Taylor says, "The warning texts arrive from a short code. A four-week test with checking-account customers found that overdraft fees fell by 24% compared with the four weeks before the test. Therefore, the bank should send overdraft warning texts before fees post. The proposal is meant mainly for checking-account customers." Which sentence is Taylor's conclusion?

A. A four-week test with checking-account customers found that overdraft fees fell by 24% compared with the four weeks before the test. choice	**B.** The bank should send overdraft warning texts before fees post. correct
C. The proposal is meant mainly for checking-account customers. choice	**D.** The warning texts arrive from a short code. choice

Core explanation. The conclusion is Taylor's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is B: The bank should send overdraft warning texts before fees post.. Treat evidence and background as helpers, not as the conclusion itself.

A feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

B feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

C feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

D feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

find_argument-076 | Level 3 | Answer A

Prompt. At a meeting about timed-entry passes for weekend park trails, Morgan says, "The digital passes include a small trail map. A four-week test with weekend trail hikers found that trail crowding complaints fell by 33% compared with the four weeks before the test. Therefore, the park service should use timed-entry passes for weekend trail visits. The proposal is meant mainly for weekend trail hikers." Which sentence is Morgan's conclusion?

A. The park service should use timed-entry passes for weekend trail visits. correct	**B.** The proposal is meant mainly for weekend trail hikers. choice
C. The digital passes include a small trail map. choice	**D.** A four-week test with weekend trail hikers found that trail crowding complaints fell by 33% compared with the four weeks before the test. choice

Core explanation. The conclusion is Morgan's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is A: The park service should use timed-entry passes for weekend trail visits.. Treat evidence and background as helpers, not as the conclusion itself.

A feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

B feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

C feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

D feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

find_argument-079 | Level 3 | Answer B

Prompt. At a meeting about same-day donation receipts, Riley says, "The receipt email subject line changed. A four-week test with first-time donors found that donor retention rose by 14% compared with the four weeks before the test. Therefore, the nonprofit should send donation receipts within one day. The proposal is meant mainly for first-time donors." Which sentence is Riley's conclusion?

A. The receipt email subject line changed. choice	**B.** The nonprofit should send donation receipts within one day. correct
C. A four-week test with first-time donors found that donor retention rose by 14% compared with the four weeks before the test. choice	**D.** The proposal is meant mainly for first-time donors. choice

Core explanation. The conclusion is Riley's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is B: The nonprofit should send donation receipts within one day.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, nonprofit, d3

A feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

B feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

C feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

D feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

find_argument-080 | Level 3 | Answer A

Prompt. At a meeting about warehouse ergonomic training, Maya says, "The training room has a ceiling-mounted projector. A four-week test with warehouse staff found that back-injury claims fell by 20% compared with the four weeks before the test. Therefore, the warehouse should offer monthly lifting-safety and ergonomic training. The proposal is meant mainly for warehouse staff." Which sentence is Maya's conclusion?

A. The warehouse should offer monthly lifting-safety and ergonomic training. correct	**B.** The proposal is meant mainly for warehouse staff. choice
C. The training room has a ceiling-mounted projector. choice	**D.** A four-week test with warehouse staff found that back-injury claims fell by 20% compared with the four weeks before the test. choice

Core explanation. The conclusion is Maya's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is A: The warehouse should offer monthly lifting-safety and ergonomic training.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, workplace safety, d3

A feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

B feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

C feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

D feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

find_argument-081 | Level 3 | Answer D

Prompt. At a meeting about apartment-lobby compost bins, Sam says, "The lobby compost bins have foot pedals. A four-week test with apartment residents found that landfill waste from participating buildings fell by 17% compared with the four weeks before the test. Therefore, the city sanitation office should place compost bins in apartment lobbies. The proposal is meant mainly for apartment residents." Which sentence is Sam's conclusion?

A. The proposal is meant mainly for apartment residents. choice	**B.** A four-week test with apartment residents found that landfill waste from participating buildings fell by 17% compared with the four weeks before the test. choice
C. The lobby compost bins have foot pedals. choice	**D.** The city sanitation office should place compost bins in apartment lobbies. correct

Core explanation. The conclusion is Sam's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is D: The city sanitation office should place compost bins in apartment lobbies.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, environment, d3

A feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

B feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

C feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

D feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

find_argument-082 | Level 3 | Answer C

Prompt. At a meeting about private-by-default app profiles, Avery says, "The privacy screen uses a shield icon. A four-week test with new app users found that publicly visible profiles fell by 48% compared with the four weeks before the test. Therefore, the app maker should make new user profiles private by default. The proposal is meant mainly for new app users." Which sentence is Avery's conclusion?

A. The proposal is meant mainly for new app users. choice	**B.** The privacy screen uses a shield icon. choice
C. The app maker should make new user profiles private by default. correct	**D.** A four-week test with new app users found that publicly visible profiles fell by 48% compared with the four weeks before the test. choice

Core explanation. The conclusion is Avery's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is C: The app maker should make new user profiles private by default.. Treat evidence and background as helpers, not as the conclusion itself.

A feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

B feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

C feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

D feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

find_argument-084 | Level 3 | Answer C

Prompt. At a meeting about seat-zone airline boarding, Morgan says, "The gate signs are backlit. A four-week test with domestic flight passengers found that average boarding time fell by 9% compared with the four weeks before the test. Therefore, the airline should board passengers by seat zone. The proposal is meant mainly for domestic flight passengers." Which sentence is Morgan's conclusion?

A. A four-week test with domestic flight passengers found that average boarding time fell by 9% compared with the four weeks before the test. choice	**B.** The gate signs are backlit. choice
C. The airline should board passengers by seat zone. correct	**D.** The proposal is meant mainly for domestic flight passengers. choice

Core explanation. The conclusion is Morgan's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is C: The airline should board passengers by seat zone.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, travel, d3

A feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

B feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

C feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

D feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

find_argument-085 | Level 3 | Answer C

Prompt. At a meeting about an online apartment repair portal, Casey says, "The repair portal uses a house logo. A four-week test with apartment tenants found that unresolved repair requests fell by 26% compared with the four weeks before the test. Therefore, the landlord should launch an online apartment repair portal. The proposal is meant mainly for apartment tenants." Which sentence is Casey's conclusion?

A. The proposal is meant mainly for apartment tenants. choice	**B.** A four-week test with apartment tenants found that unresolved repair requests fell by 26% compared with the four weeks before the test. choice
C. The landlord should launch an online apartment repair portal. correct	**D.** The repair portal uses a house logo. choice

Core explanation. The conclusion is Casey's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is C: The landlord should launch an online apartment repair portal.. Treat evidence and background as helpers, not as the conclusion itself.

A feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

B feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

C feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

D feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

find_argument-093 | Level 3 | Answer A

Prompt. At a meeting about safe-driving feedback for policyholders, Casey says, "The feedback dashboard uses star ratings. A four-week test with auto-insurance policyholders found that reported minor crashes fell by 8% compared with the four weeks before the test. Therefore, the insurer should send weekly safe-driving feedback. The proposal is meant mainly for auto-insurance policyholders." Which sentence is Casey's conclusion?

A. The insurer should send weekly safe-driving feedback. correct	**B.** The proposal is meant mainly for auto-insurance policyholders. choice
C. A four-week test with auto-insurance policyholders found that reported minor crashes fell by 8% compared with the four weeks before the test. choice	**D.** The feedback dashboard uses star ratings. choice

Core explanation. The conclusion is Casey's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is A: The insurer should send weekly safe-driving feedback.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, insurance, d3

A feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

B feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

C feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

D feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

find_argument-094 | Level 3 | Answer B

Prompt. At a meeting about top-of-article correction boxes, Jordan says, "The correction box has a gray border. A four-week test with newsletter readers found that reader trust ratings rose by 7% compared with the four weeks before the test. Therefore, the newsroom should place corrections at the top of articles. The proposal is meant mainly for newsletter readers." Which sentence is Jordan's conclusion?

A. The proposal is meant mainly for newsletter readers. choice	**B.** The newsroom should place corrections at the top of articles. correct
C. The correction box has a gray border. choice	**D.** A four-week test with newsletter readers found that reader trust ratings rose by 7% compared with the four weeks before the test. choice

Core explanation. The conclusion is Jordan's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is B: The newsroom should place corrections at the top of articles.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, media, d3

A feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

B feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

C feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

D feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

find_argument-095 | Level 3 | Answer B

Prompt. At a meeting about clearer farmers market price signs, Riley says, "The stall price signs are laminated. A four-week test with weekend farmers market shoppers found that price disputes fell by 28% compared with the four weeks before the test. Therefore, the farmers market should require clearer price signs at vendor stalls. The proposal is meant mainly for weekend farmers market shoppers." Which sentence is Riley's conclusion?

A. A four-week test with weekend farmers market shoppers found that price disputes fell by 28% compared with the four weeks before the test. choice	**B.** The farmers market should require clearer price signs at vendor stalls. correct
C. The stall price signs are laminated. choice	**D.** The proposal is meant mainly for weekend farmers market shoppers. choice

Core explanation. The conclusion is Riley's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is B: The farmers market should require clearer price signs at vendor stalls.. Treat evidence and background as helpers, not as the conclusion itself.

A feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

B feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

C feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

D feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

find_argument-098 | Level 4 | Answer C

Prompt. At a meeting about classroom phone lockers, Taylor says, "The lockers are installed near the gym. A four-week test with ninth-grade students found that classroom disruption reports fell by 31% compared with the four weeks before the test. Therefore, the school board should require phone lockers during class. The proposal is meant mainly for ninth-grade students." Which sentence is Taylor's conclusion?

A. The proposal is meant mainly for ninth-grade students. choice	**B.** The lockers are installed near the gym. choice
C. The school board should require phone lockers during class. correct	**D.** A four-week test with ninth-grade students found that classroom disruption reports fell by 31% compared with the four weeks before the test. choice

Core explanation. The conclusion is Taylor's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is C: The school board should require phone lockers during class.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, education, d4

A feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

B feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

C feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

D feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

find_argument-099 | Level 4 | Answer B

Prompt. At a meeting about medication reminder texts for older patients, Morgan says, "The text messages use a green pill icon. A four-week test with patients over 60 found that missed-dose reports fell by 18% compared with the four weeks before the test. Therefore, the hospital should send medication reminder texts before evening doses. The proposal is meant mainly for patients over 60." Which sentence is Morgan's conclusion?

A. The text messages use a green pill icon. choice	**B.** The hospital should send medication reminder texts before evening doses. correct
C. A four-week test with patients over 60 found that missed-dose reports fell by 18% compared with the four weeks before the test. choice	**D.** The proposal is meant mainly for patients over 60. choice

Core explanation. The conclusion is Morgan's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is B: The hospital should send medication reminder texts before evening doses.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, health, d4

A feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

B feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

C feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

D feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

find_argument-100 | Level 4 | Answer A

Prompt. At a meeting about a four-day workweek test for software engineers, Casey says, "The test calendar starts on a Monday. A four-week test with software engineers found that staff resignations fell by 15% compared with the four weeks before the test. Therefore, the company should test a Monday-through-Thursday workweek. The proposal is meant mainly for software engineers." Which sentence is Casey's conclusion?

A. The company should test a Monday-through-Thursday workweek. correct	**B.** The test calendar starts on a Monday. choice
C. A four-week test with software engineers found that staff resignations fell by 15% compared with the four weeks before the test. choice	**D.** The proposal is meant mainly for software engineers. choice

Core explanation. The conclusion is Casey's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is A: The company should test a Monday-through-Thursday workweek.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, workplace, d4

A feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

B feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

C feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

D feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

find_argument-101 | Level 4 | Answer B

Prompt. At a meeting about larger grocery unit-price labels, Jordan says, "The shelf labels use bold black numbers. A four-week test with weekly grocery shoppers found that shopper overpayment complaints fell by 27% compared with the four weeks before the test. Therefore, the grocery chain should add larger unit-price labels on shelf tags. The proposal is meant mainly for weekly grocery shoppers." Which sentence is Jordan's conclusion?

A. The shelf labels use bold black numbers. choice	**B.** The grocery chain should add larger unit-price labels on shelf tags. correct
C. The proposal is meant mainly for weekly grocery shoppers. choice	**D.** A four-week test with weekly grocery shoppers found that shopper overpayment complaints fell by 27% compared with the four weeks before the test. choice

Core explanation. The conclusion is Jordan's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is B: The grocery chain should add larger unit-price labels on shelf tags.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, retail, d4

A feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

B feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

C feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

D feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

find_argument-102 | Level 4 | Answer D

Prompt. At a meeting about late fines on children's books, Riley says, "The children's-book checkout desk moved six feet. A four-week test with families checking out children's books found that library card renewals rose by 19% compared with the four weeks before the test. Therefore, the library should waive late fines for children's books. The proposal is meant mainly for families checking out children's books." Which sentence is Riley's conclusion?

A. The proposal is meant mainly for families checking out children's books. choice	**B.** A four-week test with families checking out children's books found that library card renewals rose by 19% compared with the four weeks before the test. choice
C. The children's-book checkout desk moved six feet. choice	**D.** The library should waive late fines for children's books. correct

Core explanation. The conclusion is Riley's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is D: The library should waive late fines for children's books.. Treat evidence and background as helpers, not as the conclusion itself.

A feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

B feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

C feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

D feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

find_argument-104 | Level 4 | Answer A

Prompt. At a meeting about brighter streetlights on Maple Street, Sam says, "The new light poles are made of aluminum. A four-week test with residents on Maple Street found that reported thefts fell by 12% compared with the four weeks before the test. Therefore, the neighborhood association should add brighter LED streetlights on Maple Street. The proposal is meant mainly for residents on Maple Street." Which sentence is Sam's conclusion?

A. The neighborhood association should add brighter LED streetlights on Maple Street. correct	**B.** A four-week test with residents on Maple Street found that reported thefts fell by 12% compared with the four weeks before the test. choice
C. The new light poles are made of aluminum. choice	**D.** The proposal is meant mainly for residents on Maple Street. choice

Core explanation. The conclusion is Sam's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is A: The neighborhood association should add brighter LED streetlights on Maple Street.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, public safety, d4

A feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

B feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

C feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

D feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

find_argument-105 | Level 4 | Answer D

Prompt. At a meeting about peer tutoring for first-year statistics students, Avery says, "The tutoring room has new chairs. A four-week test with first-year statistics students found that course pass rates rose by 11% compared with the four weeks before the test. Therefore, the university should expand peer tutoring in statistics. The proposal is meant mainly for first-year statistics students." Which sentence is Avery's conclusion?

A. A four-week test with first-year statistics students found that course pass rates rose by 11% compared with the four weeks before the test. choice	**B.** The tutoring room has new chairs. choice
C. The proposal is meant mainly for first-year statistics students. choice	**D.** The university should expand peer tutoring in statistics. correct

Core explanation. The conclusion is Avery's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is D: The university should expand peer tutoring in statistics.. Treat evidence and background as helpers, not as the conclusion itself.

A feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

B feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

C feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

D feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

find_argument-113 | Level 4 | Answer C

Prompt. At a meeting about apartment-lobby compost bins, Avery says, "The lobby compost bins have foot pedals. A four-week test with apartment residents found that landfill waste from participating buildings fell by 17% compared with the four weeks before the test. Therefore, the city sanitation office should place compost bins in apartment lobbies. The proposal is meant mainly for apartment residents." Which sentence is Avery's conclusion?

A. The lobby compost bins have foot pedals. choice	**B.** The proposal is meant mainly for apartment residents. choice
C. The city sanitation office should place compost bins in apartment lobbies. correct	**D.** A four-week test with apartment residents found that landfill waste from participating buildings fell by 17% compared with the four weeks before the test. choice

Core explanation. The conclusion is Avery's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is C: The city sanitation office should place compost bins in apartment lobbies.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, environment, d4

A feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

B feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

C feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

D feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

find_argument-114 | Level 4 | Answer A

Prompt. At a meeting about private-by-default app profiles, Taylor says, "The privacy screen uses a shield icon. A four-week test with new app users found that publicly visible profiles fell by 48% compared with the four weeks before the test. Therefore, the app maker should make new user profiles private by default. The proposal is meant mainly for new app users." Which sentence is Taylor's conclusion?

A. The app maker should make new user profiles private by default. correct	**B.** The proposal is meant mainly for new app users. choice
C. The privacy screen uses a shield icon. choice	**D.** A four-week test with new app users found that publicly visible profiles fell by 48% compared with the four weeks before the test. choice

Core explanation. The conclusion is Taylor's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is A: The app maker should make new user profiles private by default.. Treat evidence and background as helpers, not as the conclusion itself.

A feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

B feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

C feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

D feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

find_argument-115 | Level 4 | Answer C

Prompt. At a meeting about same-day clinic appointment slots, Morgan says, "The appointment cards are white. A four-week test with primary-care patients found that patient no-show rates fell by 13% compared with the four weeks before the test. Therefore, the clinic should reserve same-day appointment slots. The proposal is meant mainly for primary-care patients." Which sentence is Morgan's conclusion?

A. A four-week test with primary-care patients found that patient no-show rates fell by 13% compared with the four weeks before the test. choice	**B.** The proposal is meant mainly for primary-care patients. choice
C. The clinic should reserve same-day appointment slots. correct	**D.** The appointment cards are white. choice

Core explanation. The conclusion is Morgan's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is C: The clinic should reserve same-day appointment slots.. Treat evidence and background as helpers, not as the conclusion itself.

A feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

B feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

C feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

D feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

find_argument-117 | Level 4 | Answer B

Prompt. At a meeting about an online apartment repair portal, Jordan says, "The repair portal uses a house logo. A four-week test with apartment tenants found that unresolved repair requests fell by 26% compared with the four weeks before the test. Therefore, the landlord should launch an online apartment repair portal. The proposal is meant mainly for apartment tenants." Which sentence is Jordan's conclusion?

A. The proposal is meant mainly for apartment tenants. choice	**B.** The landlord should launch an online apartment repair portal. correct
C. A four-week test with apartment tenants found that unresolved repair requests fell by 26% compared with the four weeks before the test. choice	**D.** The repair portal uses a house logo. choice

Core explanation. The conclusion is Jordan's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is B: The landlord should launch an online apartment repair portal.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, housing, d4

A feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

B feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

C feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

D feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

find_argument-118 | Level 4 | Answer D

Prompt. At a meeting about fruit placement in a school cafeteria line, Riley says, "The fruit bowls are ceramic. A four-week test with middle-school students found that fruit purchases rose by 23% compared with the four weeks before the test. Therefore, the cafeteria should move fruit bowls to the front of the cafeteria line. The proposal is meant mainly for middle-school students." Which sentence is Riley's conclusion?

A. The proposal is meant mainly for middle-school students. choice	**B.** The fruit bowls are ceramic. choice
C. A four-week test with middle-school students found that fruit purchases rose by 23% compared with the four weeks before the test. choice	**D.** The cafeteria should move fruit bowls to the front of the cafeteria line. correct

Core explanation. The conclusion is Riley's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is D: The cafeteria should move fruit bowls to the front of the cafeteria line.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, food, d4

A feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

B feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

C feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

D feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

find_argument-119 | Level 4 | Answer B

Prompt. At a meeting about weekly call-center script coaching, Maya says, "The coaching slides use blue headers. A four-week test with support agents found that customer complaint rates fell by 18% compared with the four weeks before the test. Therefore, the call center should give support agents weekly script coaching. The proposal is meant mainly for support agents." Which sentence is Maya's conclusion?

A. A four-week test with support agents found that customer complaint rates fell by 18% compared with the four weeks before the test. choice	**B.** The call center should give support agents weekly script coaching. correct
C. The proposal is meant mainly for support agents. choice	**D.** The coaching slides use blue headers. choice

Core explanation. The conclusion is Maya's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is B: The call center should give support agents weekly script coaching.. Treat evidence and background as helpers, not as the conclusion itself.

A feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

B feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

C feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

D feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

find_argument-120 | Level 4 | Answer A

Prompt. At a meeting about household water-leak alerts, Sam says, "The water-leak alert screen includes a blue droplet icon. A four-week test with local homeowners found that average household water use fell by 10% compared with the four weeks before the test. Therefore, the water utility should send automatic household water-leak alerts. The proposal is meant mainly for local homeowners." Which sentence is Sam's conclusion?

A. The water utility should send automatic household water-leak alerts. correct	**B.** The water-leak alert screen includes a blue droplet icon. choice
C. A four-week test with local homeowners found that average household water use fell by 10% compared with the four weeks before the test. choice	**D.** The proposal is meant mainly for local homeowners. choice

Core explanation. The conclusion is Sam's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is A: The water utility should send automatic household water-leak alerts.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, utilities, d4

A feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

B feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

C feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

D feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

find_argument-121 | Level 4 | Answer B

Prompt. At a meeting about body-camera activation reminders, Avery says, "The reminder tone is two beeps. A four-week test with patrol officers found that missing-camera-footage reports fell by 35% compared with the four weeks before the test. Therefore, the police department should send body-camera activation reminders before patrol shifts. The proposal is meant mainly for patrol officers." Which sentence is Avery's conclusion?

A. The reminder tone is two beeps. choice	**B.** The police department should send body-camera activation reminders before patrol shifts. correct
C. A four-week test with patrol officers found that missing-camera-footage reports fell by 35% compared with the four weeks before the test. choice	**D.** The proposal is meant mainly for patrol officers. choice

Core explanation. The conclusion is Avery's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is B: The police department should send body-camera activation reminders before patrol shifts.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, governance, d4

A feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

B feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

C feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

D feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

find_argument-122 | Level 4 | Answer D

Prompt. At a meeting about county mail-ballot tracking, Taylor says, "The ballot-tracking page uses county colors. A four-week test with mail voters found that phone calls asking ballot status fell by 42% compared with the four weeks before the test. Therefore, the election office should offer online mail-ballot tracking. The proposal is meant mainly for mail voters." Which sentence is Taylor's conclusion?

A. The ballot-tracking page uses county colors. choice	**B.** The proposal is meant mainly for mail voters. choice
C. A four-week test with mail voters found that phone calls asking ballot status fell by 42% compared with the four weeks before the test. choice	**D.** The election office should offer online mail-ballot tracking. correct

Core explanation. The conclusion is Taylor's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is D: The election office should offer online mail-ballot tracking.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, election administration, d4

A feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

B feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

C feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

D feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

find_argument-123 | Level 4 | Answer B

Prompt. At a meeting about language-learning spaced-review prompts, Morgan says, "The review prompts use a bell icon. A four-week test with language learners found that vocabulary retention quiz scores rose by 12% compared with the four weeks before the test. Therefore, the tutoring app should send spaced-review prompts for language vocabulary. The proposal is meant mainly for language learners." Which sentence is Morgan's conclusion?

A. A four-week test with language learners found that vocabulary retention quiz scores rose by 12% compared with the four weeks before the test. choice	**B.** The tutoring app should send spaced-review prompts for language vocabulary. correct
C. The review prompts use a bell icon. choice	**D.** The proposal is meant mainly for language learners. choice

Core explanation. The conclusion is Morgan's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is B: The tutoring app should send spaced-review prompts for language vocabulary.. Treat evidence and background as helpers, not as the conclusion itself.

A feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

B feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

C feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

D feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

find_argument-125 | Level 4 | Answer A

Prompt. At a meeting about safe-driving feedback for policyholders, Jordan says, "The feedback dashboard uses star ratings. A four-week test with auto-insurance policyholders found that reported minor crashes fell by 8% compared with the four weeks before the test. Therefore, the insurer should send weekly safe-driving feedback. The proposal is meant mainly for auto-insurance policyholders." Which sentence is Jordan's conclusion?

A. The insurer should send weekly safe-driving feedback. correct	**B.** A four-week test with auto-insurance policyholders found that reported minor crashes fell by 8% compared with the four weeks before the test. choice
C. The feedback dashboard uses star ratings. choice	**D.** The proposal is meant mainly for auto-insurance policyholders. choice

Core explanation. The conclusion is Jordan's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is A: The insurer should send weekly safe-driving feedback.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, insurance, d4

A feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

B feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

C feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

D feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

find_argument-126 | Level 4 | Answer C

Prompt. At a meeting about top-of-article correction boxes, Riley says, "The correction box has a gray border. A four-week test with newsletter readers found that reader trust ratings rose by 7% compared with the four weeks before the test. Therefore, the newsroom should place corrections at the top of articles. The proposal is meant mainly for newsletter readers." Which sentence is Riley's conclusion?

A. The proposal is meant mainly for newsletter readers. choice	**B.** A four-week test with newsletter readers found that reader trust ratings rose by 7% compared with the four weeks before the test. choice
C. The newsroom should place corrections at the top of articles. correct	**D.** The correction box has a gray border. choice

Core explanation. The conclusion is Riley's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is C: The newsroom should place corrections at the top of articles.. Treat evidence and background as helpers, not as the conclusion itself.

A feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

B feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

C feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

D feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

find_argument-127 | Level 4 | Answer C

Prompt. At a meeting about clearer farmers market price signs, Maya says, "The stall price signs are laminated. A four-week test with weekend farmers market shoppers found that price disputes fell by 28% compared with the four weeks before the test. Therefore, the farmers market should require clearer price signs at vendor stalls. The proposal is meant mainly for weekend farmers market shoppers." Which sentence is Maya's conclusion?

A. The stall price signs are laminated. choice	**B.** The proposal is meant mainly for weekend farmers market shoppers. choice
C. The farmers market should require clearer price signs at vendor stalls. correct	**D.** A four-week test with weekend farmers market shoppers found that price disputes fell by 28% compared with the four weeks before the test. choice

Core explanation. The conclusion is Maya's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is C: The farmers market should require clearer price signs at vendor stalls.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, local commerce, d4

A feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

B feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

C feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

D feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

find_argument-128 | Level 4 | Answer D

Prompt. At a meeting about hotel quiet-hours text reminders, Sam says, "The quiet-hours text reminder uses a small moon icon. A four-week test with overnight hotel guests found that noise complaints from guest rooms fell by 30% compared with the four weeks before the test. Therefore, the hotel should send quiet-hours text reminders to hotel guests. The proposal is meant mainly for overnight hotel guests." Which sentence is Sam's conclusion?

A. The quiet-hours text reminder uses a small moon icon. choice	**B.** The proposal is meant mainly for overnight hotel guests. choice
C. A four-week test with overnight hotel guests found that noise complaints from guest rooms fell by 30% compared with the four weeks before the test. choice	**D.** The hotel should send quiet-hours text reminders to hotel guests. correct

Core explanation. The conclusion is Sam's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is D: The hotel should send quiet-hours text reminders to hotel guests.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, hospitality, d4

A feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

B feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

C feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

D feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

Level 5

Level 5 is for fluency: the learner should now name the thinking move and explain the elimination path.

find_argument-129 | Level 5 | Answer C

Prompt. At a meeting about evening bus service for late-shift workers, Taylor says, "The new buses were repainted blue. A four-week test with late-shift workers found that late-shift commute complaints fell by 22% compared with the four weeks before the test. Therefore, the city council should extend evening bus service until midnight. The proposal is meant mainly for late-shift workers." Which sentence is Taylor's conclusion?

A. The proposal is meant mainly for late-shift workers. choice	**B.** The new buses were repainted blue. choice
C. The city council should extend evening bus service until midnight. correct	**D.** A four-week test with late-shift workers found that late-shift commute complaints fell by 22% compared with the four weeks before the test. choice

Core explanation. The conclusion is Taylor's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is C: The city council should extend evening bus service until midnight.. Treat evidence and background as helpers, not as the conclusion itself.

A feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

B feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

C feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

D feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

find_argument-133 | Level 5 | Answer C

Prompt. At a meeting about larger grocery unit-price labels, Riley says, "The shelf labels use bold black numbers. A four-week test with weekly grocery shoppers found that shopper overpayment complaints fell by 27% compared with the four weeks before the test. Therefore, the grocery chain should add larger unit-price labels on shelf tags. The proposal is meant mainly for weekly grocery shoppers." Which sentence is Riley's conclusion?

A. The shelf labels use bold black numbers. choice	**B.** The proposal is meant mainly for weekly grocery shoppers. choice
C. The grocery chain should add larger unit-price labels on shelf tags. correct	**D.** A four-week test with weekly grocery shoppers found that shopper overpayment complaints fell by 27% compared with the four weeks before the test. choice

Core explanation. The conclusion is Riley's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is C: The grocery chain should add larger unit-price labels on shelf tags.. Treat evidence and background as helpers, not as the conclusion itself.

A feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

B feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

C feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

D feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

find_argument-137 | Level 5 | Answer A

Prompt. At a meeting about peer tutoring for first-year statistics students, Taylor says, "The tutoring room has new chairs. A four-week test with first-year statistics students found that course pass rates rose by 11% compared with the four weeks before the test. Therefore, the university should expand peer tutoring in statistics. The proposal is meant mainly for first-year statistics students." Which sentence is Taylor's conclusion?

A. The university should expand peer tutoring in statistics. correct	**B.** The tutoring room has new chairs. choice
C. The proposal is meant mainly for first-year statistics students. choice	**D.** A four-week test with first-year statistics students found that course pass rates rose by 11% compared with the four weeks before the test. choice

Core explanation. The conclusion is Taylor's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is A: The university should expand peer tutoring in statistics.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, education, d5

A feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

B feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

C feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

D feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

find_argument-138 | Level 5 | Answer B

Prompt. At a meeting about calorie labels on restaurant menus, Morgan says, "The lunch menus are printed on thicker paper. A four-week test with lunch customers found that dessert orders fell by 16% compared with the four weeks before the test. Therefore, the restaurant group should show calorie labels on printed lunch menus. The proposal is meant mainly for lunch customers." Which sentence is Morgan's conclusion?

A. The lunch menus are printed on thicker paper. choice	**B.** The restaurant group should show calorie labels on printed lunch menus. correct
C. A four-week test with lunch customers found that dessert orders fell by 16% compared with the four weeks before the test. choice	**D.** The proposal is meant mainly for lunch customers. choice

Core explanation. The conclusion is Morgan's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is B: The restaurant group should show calorie labels on printed lunch menus.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, nutrition, d5

A feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

B feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

C feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

D feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

find_argument-139 | Level 5 | Answer D

Prompt. At a meeting about bank overdraft warning texts, Casey says, "The warning texts arrive from a short code. A four-week test with checking-account customers found that overdraft fees fell by 24% compared with the four weeks before the test. Therefore, the bank should send overdraft warning texts before fees post. The proposal is meant mainly for checking-account customers." Which sentence is Casey's conclusion?

A. The proposal is meant mainly for checking-account customers. choice	**B.** The warning texts arrive from a short code. choice
C. A four-week test with checking-account customers found that overdraft fees fell by 24% compared with the four weeks before the test. choice	**D.** The bank should send overdraft warning texts before fees post. correct

Core explanation. The conclusion is Casey's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is D: The bank should send overdraft warning texts before fees post.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, finance, d5

A feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

B feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

C feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

D feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

find_argument-140 | Level 5 | Answer B

Prompt. At a meeting about timed-entry passes for weekend park trails, Jordan says, "The digital passes include a small trail map. A four-week test with weekend trail hikers found that trail crowding complaints fell by 33% compared with the four weeks before the test. Therefore, the park service should use timed-entry passes for weekend trail visits. The proposal is meant mainly for weekend trail hikers." Which sentence is Jordan's conclusion?

A. The proposal is meant mainly for weekend trail hikers. choice	**B.** The park service should use timed-entry passes for weekend trail visits. correct
C. The digital passes include a small trail map. choice	**D.** A four-week test with weekend trail hikers found that trail crowding complaints fell by 33% compared with the four weeks before the test. choice

Core explanation. The conclusion is Jordan's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is B: The park service should use timed-entry passes for weekend trail visits.. Treat evidence and background as helpers, not as the conclusion itself.

A feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

B feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

C feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

D feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

find_argument-143 | Level 5 | Answer B

Prompt. At a meeting about same-day donation receipts, Sam says, "The receipt email subject line changed. A four-week test with first-time donors found that donor retention rose by 14% compared with the four weeks before the test. Therefore, the nonprofit should send donation receipts within one day. The proposal is meant mainly for first-time donors." Which sentence is Sam's conclusion?

A. The proposal is meant mainly for first-time donors. choice	**B.** The nonprofit should send donation receipts within one day. correct
C. A four-week test with first-time donors found that donor retention rose by 14% compared with the four weeks before the test. choice	**D.** The receipt email subject line changed. choice

Core explanation. The conclusion is Sam's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is B: The nonprofit should send donation receipts within one day.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, nonprofit, d5

A feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

B feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

C feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

D feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

find_argument-144 | Level 5 | Answer A

Prompt. At a meeting about warehouse ergonomic training, Avery says, "The training room has a ceiling-mounted projector. A four-week test with warehouse staff found that back-injury claims fell by 20% compared with the four weeks before the test. Therefore, the warehouse should offer monthly lifting-safety and ergonomic training. The proposal is meant mainly for warehouse staff." Which sentence is Avery's conclusion?

A. The warehouse should offer monthly lifting-safety and ergonomic training. correct	**B.** The proposal is meant mainly for warehouse staff. choice
C. A four-week test with warehouse staff found that back-injury claims fell by 20% compared with the four weeks before the test. choice	**D.** The training room has a ceiling-mounted projector. choice

Core explanation. The conclusion is Avery's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is A: The warehouse should offer monthly lifting-safety and ergonomic training.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, workplace safety, d5

A feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

B feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

C feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

D feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

find_argument-145 | Level 5 | Answer D

Prompt. At a meeting about apartment-lobby compost bins, Taylor says, "The lobby compost bins have foot pedals. A four-week test with apartment residents found that landfill waste from participating buildings fell by 17% compared with the four weeks before the test. Therefore, the city sanitation office should place compost bins in apartment lobbies. The proposal is meant mainly for apartment residents." Which sentence is Taylor's conclusion?

A. A four-week test with apartment residents found that landfill waste from participating buildings fell by 17% compared with the four weeks before the test. choice	**B.** The proposal is meant mainly for apartment residents. choice
C. The lobby compost bins have foot pedals. choice	**D.** The city sanitation office should place compost bins in apartment lobbies. correct

Core explanation. The conclusion is Taylor's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is D: The city sanitation office should place compost bins in apartment lobbies.. Treat evidence and background as helpers, not as the conclusion itself.

C feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

D feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

find_argument-150 | Level 5 | Answer A

Prompt. At a meeting about fruit placement in a school cafeteria line, Maya says, "The fruit bowls are ceramic. A four-week test with middle-school students found that fruit purchases rose by 23% compared with the four weeks before the test. Therefore, the cafeteria should move fruit bowls to the front of the cafeteria line. The proposal is meant mainly for middle-school students." Which sentence is Maya's conclusion?

A. The cafeteria should move fruit bowls to the front of the cafeteria line. correct	**B.** The fruit bowls are ceramic. choice
C. The proposal is meant mainly for middle-school students. choice	**D.** A four-week test with middle-school students found that fruit purchases rose by 23% compared with the four weeks before the test. choice

Core explanation. The conclusion is Maya's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is A: The cafeteria should move fruit bowls to the front of the cafeteria line.. Treat evidence and background as helpers, not as the conclusion itself.

Tags: find_argument, argument-map, food, d5

A feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

B feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

C feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

D feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

find_argument-151 | Level 5 | Answer A

Prompt. At a meeting about weekly call-center script coaching, Sam says, "The coaching slides use blue headers. A four-week test with support agents found that customer complaint rates fell by 18% compared with the four weeks before the test. Therefore, the call center should give support agents weekly script coaching. The proposal is meant mainly for support agents." Which sentence is Sam's conclusion?

A. The call center should give support agents weekly script coaching. correct	**B.** A four-week test with support agents found that customer complaint rates fell by 18% compared with the four weeks before the test. choice
C. The coaching slides use blue headers. choice	**D.** The proposal is meant mainly for support agents. choice

Core explanation. The conclusion is Sam's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is A: The call center should give support agents weekly script coaching.. Treat evidence and background as helpers, not as the conclusion itself.

A feedback (Correct): Correct. This sentence is the conclusion: the point being supported. The other sentences are evidence, background, or information about who the proposal is meant to help.

B feedback (Distractor): Not quite. This sentence gives a reason or evidence. A conclusion is the point that reason is meant to support.

C feedback (Distractor): Not quite. This is a background detail. The conclusion is the sentence that follows from the reasons and says what should be accepted.

D feedback (Distractor): Not quite. This is background about the proposal's audience. It helps set the scene, but it is not the point being argued for.

find_argument-152 | Level 5 | Answer B

Prompt. At a meeting about household water-leak alerts, Avery says, "The water-leak alert screen includes a blue droplet icon. A four-week test with local homeowners found that average household water use fell by 10% compared with the four weeks before the test. Therefore, the water utility should send automatic household water-leak alerts. The proposal is meant mainly for local homeowners." Which sentence is Avery's conclusion?

A. A four-week test with local homeowners found that average household water use fell by 10% compared with the four weeks before the test. choice	**B.** The water utility should send automatic household water-leak alerts. correct
C. The water-leak alert screen includes a blue droplet icon. choice	**D.** The proposal is meant mainly for local homeowners. choice

Core explanation. The conclusion is Avery's point. The test result is a reason offered to support it.

Process commentary. To uncover the answer, ask which sentence is being supported by the others. The correct choice is B: The water utility should send automatic household water-leak alerts.. Treat evidence and background as helpers, not as the conclusion itself.
