Warm-up / Shorter lunch queues

Keep the evidence on the question

Name: _____ Date: _____

Suggested lesson time: 20 minutes. Work individually, then compare when invited.

Useful words

Relevance: A connection between information and the particular question being judged.

Outcome: The result a claim says an action affects.

Comparison: Examining cases side by side using the same relevant measure.

Read the scenario

Invented scenario: A cafeteria claims opening a second till shortens lunch queues. Fact A: average waits were four minutes with two tills open and seven with one, on comparable lunch days. Fact B: students liked the new wall mural.

Produce: Name the claimed outcome and explain the relevance of each fact.

Your steps

1. State what the extra till is claimed to change.
2. Choose the fact that directly compares that outcome.
3. Explain why the other fact does not answer this question.

Before you finish: Are you judging queue waiting time rather than how pleasant the room looks?

Your response

Main activity / Which hotel fact matters?

Name: _____

Read the scenario

Invented scenario: A hotel manager claims text reminders reduce hallway noise complaints. Fact A: comparable floors receiving reminders had four complaints per 100 occupied room-nights, versus seven on floors without reminders in the same month. Fact B: most guests liked the new lobby painting. A room-night means one occupied room for one night.

Produce: Write the claim's action and outcome, then explain the relevance of Fact A and Fact B.

Your steps

1. Name the action and the outcome in the claim.
2. Choose which fact bears directly on the claim and explain the connection.
3. Explain why the other fact does not answer this question, even if it is true.

Before you finish: Have you linked the evidence to reminders and noise complaints, rather than to general guest satisfaction?

Your response

Exit ticket / Returning library books on time

Name: _____

Read the scenario

Invented scenario: A librarian claims reminder emails reduce late book returns. Fact A: in the same month, comparable borrowers sent reminders returned 8 of every 100 books late; borrowers without reminders returned 13 of every 100 late. Fact B: the library website won a design award.

Produce: Write the action and outcome, choose the relevant fact, and explain why the other fact does not answer the claim.

Your steps

1. Name the action being assessed and the result it is meant to affect.
2. Explain how one fact compares that result with and without the action.
3. Explain why the other fact, even if true, does not test this claim.

Before you finish: Have you kept late returns separate from the website's appearance or reputation?

Your response
