Skill 02

Define Key Terms

What Do the Words Mean?

Find the word or phrase that needs a clearer meaning. Objective	**160** Items	**Levels 1-5** Difficulty bands

Essential question	Which word or phrase must be made clearer before the argument can be fairly judged?
Why it matters	Vague words let people agree too quickly and disagree too late. Terms such as fair, safe, enough, harmful, or successful can carry the whole argument while meaning different things to different people.
Conceptual core	Arguments often turn on ordinary words that hide a standard. Words like safe, fair, effective, affordable, harmful, successful, and better invite disagreement unless the speaker says what would count. Defining terms does not settle the whole argument, but it makes the argument testable. The goal is not to demand definitions for every word; it is to find the term that carries the burden of the conclusion.
Student method	Find the word that sets the standard for judgment. If reasonable people could ask, How much? In what way? By whose measure? or Compared with what?, the word probably needs a sharper definition.
Analogy	A vague term is like a blurry ruler. You can measure with it only after the markings are clear.
Assessment focus	A good answer selects the vague or standard-setting phrase and can explain what kind of definition would make the claim testable.

Teaching Sequence

1. Look for judgment words, threshold words, and comparison words.

2. Ask what someone would need to count or observe to apply the term.

3. Distinguish unclear key terms from details that are already specific.

4. Test whether two reasonable readers could interpret the word differently.

Common Confusions To Watch For

1. Students may pick a familiar word simply because it appears often in the prompt.

2. Students may think a term is clear because they have a private meaning for it.

3. Students may define a side detail while leaving the standard that matters untouched.

Teacher Prompts

1. What would count as enough?

2. What would two people disagree about even if they agreed on the facts?

3. Can we measure or apply this word without adding a standard?

Worked Example

Scenario	A school says a phone rule is justified because it creates a healthier classroom.
Teacher think-aloud	The word healthier is doing the work. Does it mean fewer distractions, less anxiety, better grades, more sleep, or better social interaction? Until that term is defined, the rule cannot be judged clearly.
Student takeaway	The key term is the one that hides the standard for success.

Guided Classroom Exercise

Invented case. Use only the facts below; write on paper. Try the steps and check your work before reading the model answer. Different wording can be equally adequate.

Situation. A principal says a new phone rule makes lessons 'better'. In the same ten classes, weekly phone interruptions fell from 20 to 12, but average test scores stayed at 70 out of 100. Both figures compare the four weeks before the rule with the four weeks after it.

What To Do

1. Write two possible definitions of 'better': one using interruptions and one using test scores. For each, state the direction of improvement and the comparison period.

2. Apply each definition to the supplied figures and say whether it shows an improvement.

3. Finish with one sentence explaining why the school's purpose should guide its choice of measure before results are inspected.

Check before reading the answer. Could a reader apply your two rules to the figures without guessing? Separate observing a change from claiming the rule caused it.

Model Answer

Definition 1: fewer weekly phone interruptions across these ten classes in the four weeks after the rule than before it. This measure improves from 20 to 12. Definition 2: a higher average test score in the same classes and periods. This measure shows no improvement: 70 in both periods. The school should choose according to whether its purpose is reducing disruption or improving test performance, rather than picking whichever result looks best.

Why it is adequate. Both definitions specify an observable measure, direction, group, and comparison; the answer shows how the conclusion depends on the definition.

Item Bank

Items are grouped by level. For each item, read the prompt, predict the answer, choose, and then use the feedback and process commentary to examine the reasoning path.

Level 1

Level 1 establishes the clean version of the skill: the cue is direct, the distractors are visible, and the main task is to learn the contrast.

Question 1

Level 1

The city council is weighing a proposal aimed at late-shift workers: extend evening bus service until midnight. At the meeting, Riley says, "Let's approve it only if the plan is safe." Which word or phrase needs a clearer meaning before people can judge what Riley means?

A. "safe"	**B.** "approve it"
C. "aimed at late-shift workers"	**D.** "weighing a proposal"

Answer: A. The word "safe" is vague here. People need a clear definition before they can tell whether the plan meets the rule.

How to work it out. To uncover the answer, look for the term that sets a standard without defining the standard. The correct choice is A because "safe" is the wording that needs a clear boundary before the argument can be judged.

A. Correct. "safe" is the word doing the unclear work. Until people define it, they cannot tell what standard the plan has to meet.

B. Not correct. People know what approving a proposal means. The unclear part is the standard that decides when approval should happen.

C. Not correct. This phrase identifies the group or proposal, but it does not set an unclear standard for judging the plan.

D. Not correct. This phrase describes the meeting context. It is not the slippery word people need to define.

Question 2

Level 1

The school board is weighing a proposal aimed at ninth-grade students: require phone lockers during class. At the meeting, Maya says, "Let's approve it only if the plan is reasonable." Which word or phrase needs a clearer meaning before people can judge what Maya means?

A. "the plan"	**B.** "reasonable"
C. "aimed at ninth-grade students"	**D.** "weighing a proposal"

Answer: B. The word "reasonable" is vague here. People need a clear definition before they can tell whether the plan meets the rule.

How to work it out. To uncover the answer, look for the term that sets a standard without defining the standard. The correct choice is B because "reasonable" is the wording that needs a clear boundary before the argument can be judged.

A. Not correct. The plan has already been named in the setup. The problem is the vague judging word attached to the plan.

B. Correct. "reasonable" is the word doing the unclear work. Until people define it, they cannot tell what standard the plan has to meet.

C. Not correct. This phrase identifies the group or proposal, but it does not set an unclear standard for judging the plan.

D. Not correct. This phrase describes the meeting context. It is not the slippery word people need to define.

Question 3

Level 1

The hospital is weighing a proposal aimed at patients over 60: send medication reminder texts before evening doses. At the meeting, Sam says, "Let's approve it only if the plan is fair." Which word or phrase needs a clearer meaning before people can judge what Sam means?

A. "weighing a proposal"	**B.** "approve it"
C. "fair"	**D.** "the plan"

Answer: C. The word "fair" is vague here. People need a clear definition before they can tell whether the plan meets the rule.

How to work it out. To uncover the answer, look for the term that sets a standard without defining the standard. The correct choice is C because "fair" is the wording that needs a clear boundary before the argument can be judged.

A. Not correct. This phrase describes the meeting context. It is not the slippery word people need to define.

B. Not correct. People know what approving a proposal means. The unclear part is the standard that decides when approval should happen.

C. Correct. "fair" is the word doing the unclear work. Until people define it, they cannot tell what standard the plan has to meet.

D. Not correct. The plan has already been named in the setup. The problem is the vague judging word attached to the plan.

Question 4

Level 1

The company is weighing a proposal aimed at software engineers: test a Monday-through-Thursday workweek. At the meeting, Avery says, "Let's approve it only if the plan is affordable." Which word or phrase needs a clearer meaning before people can judge what Avery means?

A. "the plan"	**B.** "aimed at software engineers"
C. "weighing a proposal"	**D.** "affordable"

Answer: D. The word "affordable" is vague here. People need a clear definition before they can tell whether the plan meets the rule.

How to work it out. To uncover the answer, look for the term that sets a standard without defining the standard. The correct choice is D because "affordable" is the wording that needs a clear boundary before the argument can be judged.

A. Not correct. The plan has already been named in the setup. The problem is the vague judging word attached to the plan.

B. Not correct. This phrase identifies the group or proposal, but it does not set an unclear standard for judging the plan.

C. Not correct. This phrase describes the meeting context. It is not the slippery word people need to define.

D. Correct. "affordable" is the word doing the unclear work. Until people define it, they cannot tell what standard the plan has to meet.

Question 5

The library is weighing a proposal aimed at families checking out children's books: waive late fines for children's books. At the meeting, Morgan says, "Let's approve it only if the plan is experienced." Which word or phrase needs a clearer meaning before people can judge what Morgan means?

A. "weighing a proposal"	**B.** "experienced"
C. "aimed at families checking out children's books"	**D.** "the plan"

Answer: B. The word "experienced" is vague here. People need a clear definition before they can tell whether the plan meets the rule.

How to work it out. To uncover the answer, look for the term that sets a standard without defining the standard. The correct choice is B because "experienced" is the wording that needs a clear boundary before the argument can be judged.

A. Not correct. This phrase describes the meeting context. It is not the slippery word people need to define.

B. Correct. "experienced" is the word doing the unclear work. Until people define it, they cannot tell what standard the plan has to meet.

C. Not correct. This phrase identifies the group or proposal, but it does not set an unclear standard for judging the plan.

D. Not correct. The plan has already been named in the setup. The problem is the vague judging word attached to the plan.

Question 7

Level 1

The platform is weighing a proposal aimed at site administrators: require two-factor login for site administrators. At the meeting, Casey says, "Let's approve it only if the plan is soon." Which word or phrase needs a clearer meaning before people can judge what Casey means?

A. "aimed at site administrators"	**B.** "the plan"
C. "soon"	**D.** "approve it"

Answer: C. The word "soon" is vague here. People need a clear definition before they can tell whether the plan meets the rule.

How to work it out. To uncover the answer, look for the term that sets a standard without defining the standard. The correct choice is C because "soon" is the wording that needs a clear boundary before the argument can be judged.

A. Not correct. This phrase identifies the group or proposal, but it does not set an unclear standard for judging the plan.

B. Not correct. The plan has already been named in the setup. The problem is the vague judging word attached to the plan.

C. Correct. "soon" is the word doing the unclear work. Until people define it, they cannot tell what standard the plan has to meet.

D. Not correct. People know what approving a proposal means. The unclear part is the standard that decides when approval should happen.

Question 8

Level 1

The neighborhood association is weighing a proposal aimed at residents on Maple Street: add brighter LED streetlights on Maple Street. At the meeting, Jordan says, "Let's approve it only if the plan is local." Which word or phrase needs a clearer meaning before people can judge what Jordan means?

A. "the plan"	**B.** "approve it"
C. "aimed at residents on Maple Street"	**D.** "local"

Answer: D. The word "local" is vague here. People need a clear definition before they can tell whether the plan meets the rule.

How to work it out. To uncover the answer, look for the term that sets a standard without defining the standard. The correct choice is D because "local" is the wording that needs a clear boundary before the argument can be judged.

A. Not correct. The plan has already been named in the setup. The problem is the vague judging word attached to the plan.

B. Not correct. People know what approving a proposal means. The unclear part is the standard that decides when approval should happen.

C. Not correct. This phrase identifies the group or proposal, but it does not set an unclear standard for judging the plan.

D. Correct. "local" is the word doing the unclear work. Until people define it, they cannot tell what standard the plan has to meet.

Question 9

Answer: B. The word "diverse" is vague here. People need a clear definition before they can tell whether the plan meets the rule.

How to work it out. To uncover the answer, look for the term that sets a standard without defining the standard. The correct choice is B because "diverse" is the wording that needs a clear boundary before the argument can be judged.

A. Not correct. The plan has already been named in the setup. The problem is the vague judging word attached to the plan.

B. Correct. "diverse" is the word doing the unclear work. Until people define it, they cannot tell what standard the plan has to meet.

C. Not correct. This phrase identifies the group or proposal, but it does not set an unclear standard for judging the plan.

D. Not correct. People know what approving a proposal means. The unclear part is the standard that decides when approval should happen.
