

Skill 15

Weigh Tradeoffs and Consequences

What Are the Tradeoffs?

160 Items	1-5 Levels	Find the clearest cost, benefit, risk, or second effect. Objective
--------------	---------------	---

Essential question. What does this choice gain, and what does it give up or risk?

This PDF is designed for classroom use. It gives teachers a rigorous introduction to the skill, a repeatable solving routine, likely student confusions, a worked example, and the full XiXteen item set with choice-level feedback.

Generated from the current XiXteen corpus on 2026-06-19.

Skill 15

Weigh Tradeoffs and Consequences

What Are the Tradeoffs?

Find the clearest cost, benefit, risk, or second effect. Objective	160 Items	Levels 1-5 Difficulty bands
---	--------------	--------------------------------

Essential question	What does this choice gain, and what does it give up or risk?
Why it matters	Decisions usually buy one good by spending another. Tradeoff thinking keeps benefits, costs, risks, delays, and second effects in the same frame.
Conceptual core	Tradeoff thinking moves students beyond pro-con lists by asking how goods compete. Time, money, attention, privacy, fairness, speed, safety, accuracy, and flexibility can all be scarce. A tradeoff is not merely a downside; it is a relationship between values or resources. Strong tradeoff answers keep the benefit and the cost in one frame.
Student method	Look for what the plan gains and what it uses up or endangers. A tradeoff is not just a downside; it is the connection between competing values or resources.
Analogy	A tradeoff is a budget for attention, money, time, or risk. Spending in one place leaves less to spend somewhere else.
Assessment focus	A good answer shows the competing benefit and cost, risk, delay, or opportunity cost in the same decision.

Teaching Sequence

1. Identify the main benefit the plan seeks.
2. Identify the resource, value, or opportunity it may use up.
3. Look for second effects on people not centered in the proposal.
4. Avoid answers that mention a cost without linking it to the choice.

Common Confusions To Watch For

1. Students may treat any negative fact as a tradeoff even if it is unrelated.
2. Students may ignore opportunity cost because no money is visibly spent.
3. Students may choose the most emotional consequence rather than the clearest competing value.

Teacher Prompts

1. What is the plan trying to improve?
2. What could get worse, receive less attention, or become riskier?
3. Who benefits, who pays, and who carries the risk?

Worked Example

Scenario	A school wants more test-prep time before exams by reducing open reading time.
Teacher think-aloud	The plan may improve short-term test practice, but it spends time that could support independent reading, curiosity, and long-term literacy. That is the tradeoff.
Student takeaway	A tradeoff names both the gain and what is spent or risked to get it.

Classroom extension. Ask students to map one school policy as a triangle of benefits, costs, and affected groups.

Item Bank

Items are grouped by level. For each item, read the prompt, predict the answer, choose, and then use the feedback and process commentary to examine the reasoning path.

Level 1

Level 1 establishes the clean version of the skill: the cue is direct, the distractors are visible, and the main task is to learn the contrast.

tradeoffs-001 | Level 1 | Answer D

Prompt. The city council can extend evening bus service until midnight, which may reduce late-shift commute complaints. But the plan requires staff time that could be used for other transportation work. Which statement best names the tradeoff?

A. A tradeoff exists only when every option is equally bad and no option has any upside. choice	B. Costs never matter if a plan has a benefit. choice
C. The main tradeoff is the unrelated detail: the new buses were repainted blue. choice	D. It names the possible benefit and the real cost so both sides are visible. correct

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is D because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, transportation, d1

- A feedback (Distractor):** Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.
- B feedback (Distractor):** Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.
- C feedback (Distractor):** Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.
- D feedback (Correct):** Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

tradeoffs-002 | Level 1 | Answer C

Prompt. The school board can require phone lockers during class, which may reduce classroom disruption reports. But the plan requires staff time that could be used for other education work. Which statement best names the tradeoff?

A. The main tradeoff is the unrelated detail: the lockers are installed near the gym. choice	B. Costs never matter if a plan has a benefit. choice
C. It weighs the hoped-for result against the resources the plan would take. correct	D. A tradeoff exists only when every option is equally bad and no option has any upside. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is C because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, education, d1

A feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

B feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

C feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

D feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

tradeoffs-003 | Level 1 | Answer B

Prompt. The hospital can send medication reminder texts before evening doses, which may reduce missed-dose reports. But the plan requires staff time that could be used for other health work. Which statement best names the tradeoff?

A. A tradeoff exists only when every option is equally bad and no option has any upside. choice	B. The benefit and the cost are counted as parts of the same decision. correct
C. The main tradeoff is the unrelated detail: the text messages use a green pill icon. choice	D. Costs never matter if a plan has a benefit. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is B because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, health, d1

A feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

B feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

C feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

D feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

tradeoffs-004 | Level 1 | Answer A

Prompt. The company can test a Monday-through-Thursday workweek, which may reduce staff resignations. But the plan requires staff time that could be used for other workplace work. Which statement best names the tradeoff?

A. The plan could help, but another need might get less attention. correct	B. A tradeoff exists only when every option is equally bad and no option has any upside. choice
C. Costs never matter if a plan has a benefit. choice	D. The main tradeoff is the unrelated detail: the test calendar starts on a Monday. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is A because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, workplace, d1

A feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

B feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

C feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

D feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

tradeoffs-005 | Level 1 | Answer D

Prompt. The grocery chain can add larger unit-price labels on shelf tags, which may reduce shopper overpayment complaints. But the plan requires staff time that could be used for other retail work. Which statement best names the tradeoff?

A. A tradeoff exists only when every option is equally bad and no option has any upside. choice	B. Costs never matter if a plan has a benefit. choice
C. The main tradeoff is the unrelated detail: the shelf labels use bold black numbers. choice	D. Both sides stay in view: possible improvement and limited resources. correct

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is D because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, retail, d1

A feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

B feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

C feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

D feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

tradeoffs-006 | Level 1 | Answer C

Prompt. The library can waive late fines for children's books, which may increase library card renewals. But the plan requires staff time that could be used for other public services work. Which statement best names the tradeoff?

A. The main tradeoff is the unrelated detail: the children's-book checkout desk moved six feet. choice	B. A tradeoff exists only when every option is equally bad and no option has any upside. choice
C. It points out what the plan might improve and what it would require in return. correct	D. Costs never matter if a plan has a benefit. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is C because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, public services, d1

A feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

B feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

C feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

D feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

tradeoffs-007 | Level 1 | Answer B

Prompt. The platform can require two-factor login for site administrators, which may reduce admin account takeovers. But the plan requires staff time that could be used for other technology work. Which statement best names the tradeoff?

A. The main tradeoff is the unrelated detail: the login button changed from green to blue. choice	B. It compares the result people want with the time, money, or attention required. correct
C. Costs never matter if a plan has a benefit. choice	D. A tradeoff exists only when every option is equally bad and no option has any upside. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is B because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, technology, d1

A feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

B feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

C feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

D feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

tradeoffs-008 | Level 1 | Answer A

Prompt. The neighborhood association can add brighter LED streetlights on Maple Street, which may reduce reported thefts. But the plan requires staff time that could be used for other public safety work. Which statement best names the tradeoff?

A. It avoids looking only at the upside by including the cost in the judgment. correct	B. Costs never matter if a plan has a benefit. choice
C. A tradeoff exists only when every option is equally bad and no option has any upside. choice	D. The main tradeoff is the unrelated detail: the new light poles are made of aluminum. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is A because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, public safety, d1

A feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

B feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

C feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

D feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

tradeoffs-009 | Level 1 | Answer D

Prompt. The university can expand peer tutoring in statistics, which may increase course pass rates. But the plan requires staff time that could be used for other education work. Which statement best names the tradeoff?

A. Costs never matter if a plan has a benefit. choice	B. The main tradeoff is the unrelated detail: the tutoring room has new chairs. choice
C. A tradeoff exists only when every option is equally bad and no option has any upside. choice	D. It notices that helping one goal may leave less support for another goal. correct

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is D because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, education, d1

A feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

B feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

C feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

D feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

tradeoffs-010 | Level 1 | Answer C

Prompt. The restaurant group can show calorie labels on printed lunch menus, which may reduce dessert orders. But the plan requires staff time that could be used for other nutrition work. Which statement best names the tradeoff?

A. The main tradeoff is the unrelated detail: the lunch menus are printed on thicker paper. choice	B. Costs never matter if a plan has a benefit. choice
C. It looks at the possible improvement while remembering the resources are limited. correct	D. A tradeoff exists only when every option is equally bad and no option has any upside. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is C because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, nutrition, d1

A feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

B feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

C feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

D feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

tradeoffs-011 | Level 1 | Answer C

Prompt. The bank can send overdraft warning texts before fees post, which may reduce overdraft fees. But the plan requires staff time that could be used for other finance work. Which statement best names the tradeoff?

A. Costs never matter if a plan has a benefit. choice	B. The main tradeoff is the unrelated detail: the warning texts arrive from a short code. choice
C. The gain people hope for is named along with the cost of getting it. correct	D. A tradeoff exists only when every option is equally bad and no option has any upside. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is C because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, finance, d1

A feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

B feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

C feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

D feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

tradeoffs-012 | Level 1 | Answer D

Prompt. The park service can use timed-entry passes for weekend trail visits, which may reduce trail crowding complaints. But the plan requires staff time that could be used for other environment work. Which statement best names the tradeoff?

A. A tradeoff exists only when every option is equally bad and no option has any upside. choice	B. The main tradeoff is the unrelated detail: the digital passes include a small trail map. choice
C. Costs never matter if a plan has a benefit. choice	D. It asks whether the expected gain is worth the resources the plan would use. correct

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is D because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, environment, d1

A feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

B feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

C feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

D feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

tradeoffs-013 | Level 1 | Answer A

Prompt. The museum can offer free admission on Fridays, which may increase family visits. But the plan requires staff time that could be used for other culture work. Which statement best names the tradeoff?

A. The benefit matters, but the cost also has to be counted. correct	B. A tradeoff exists only when every option is equally bad and no option has any upside. choice
C. Costs never matter if a plan has a benefit. choice	D. The main tradeoff is the unrelated detail: the Friday tickets are scanned at the east door. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is A because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, culture, d1

A feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

B feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

C feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

D feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

tradeoffs-014 | Level 1 | Answer B

Prompt. The sports league can add mandatory sideline concussion checks, which may reduce repeat head injuries. But the plan requires staff time that could be used for other sports work. Which statement best names the tradeoff?

A. The main tradeoff is the unrelated detail: the concussion checklist is printed on yellow paper. choice	B. One group or need may benefit while another waits longer. correct
C. A tradeoff exists only when every option is equally bad and no option has any upside. choice	D. Costs never matter if a plan has a benefit. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is B because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, sports, d1

A feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

B feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

C feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

D feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

tradeoffs-015 | Level 1 | Answer C

Prompt. The nonprofit can send donation receipts within one day, which may increase donor retention. But the plan requires staff time that could be used for other nonprofit work. Which statement best names the tradeoff?

A. The main tradeoff is the unrelated detail: the receipt email subject line changed. choice	B. A tradeoff exists only when every option is equally bad and no option has any upside. choice
C. It names the hoped-for gain and the limit that makes the choice difficult. correct	D. Costs never matter if a plan has a benefit. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is C because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, nonprofit, d1

A feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

B feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

C feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

D feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

tradeoffs-016 | Level 1 | Answer D

Prompt. The warehouse can offer monthly lifting-safety and ergonomic training, which may reduce back-injury claims. But the plan requires staff time that could be used for other workplace safety work. Which statement best names the tradeoff?

A. Costs never matter if a plan has a benefit. choice	B. The main tradeoff is the unrelated detail: the training room has a ceiling-mounted projector. choice
C. A tradeoff exists only when every option is equally bad and no option has any upside. choice	D. The possible improvement and the required cost are kept together. correct

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is D because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, workplace safety, d1

A feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

B feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

C feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

D feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

tradeoffs-017 | Level 1 | Answer A

Prompt. The city sanitation office can place compost bins in apartment lobbies, which may reduce landfill waste from participating buildings. But the plan requires staff time that could be used for other environment work. Which statement best names the tradeoff?

A. The desired result and the required resources stay in the same decision. correct	B. A tradeoff exists only when every option is equally bad and no option has any upside. choice
C. Costs never matter if a plan has a benefit. choice	D. The main tradeoff is the unrelated detail: the lobby compost bins have foot pedals. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is A because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, environment, d1

A feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

B feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

C feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

D feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

tradeoffs-018 | Level 1 | Answer B

Prompt. The app maker can make new user profiles private by default, which may reduce publicly visible profiles. But the plan requires staff time that could be used for other technology work. Which statement best names the tradeoff?

A. Costs never matter if a plan has a benefit. choice	B. The upside and the downside are kept together instead of separated. correct
C. A tradeoff exists only when every option is equally bad and no option has any upside. choice	D. The main tradeoff is the unrelated detail: the privacy screen uses a shield icon. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is B because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, technology, d1

A feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

B feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

C feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

D feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

tradeoffs-019 | Level 1 | Answer A

Prompt. The clinic can reserve same-day appointment slots, which may reduce patient no-show rates. But the plan requires staff time that could be used for other health work. Which statement best names the tradeoff?

A. The possible help is real, but the answer also names what may be delayed. correct	B. Costs never matter if a plan has a benefit. choice
C. The main tradeoff is the unrelated detail: the appointment cards are white. choice	D. A tradeoff exists only when every option is equally bad and no option has any upside. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is A because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, health, d1

A feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

B feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

C feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

D feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

tradeoffs-020 | Level 1 | Answer B

Prompt. The airline can board passengers by seat zone, which may reduce average boarding time. But the plan requires staff time that could be used for other travel work. Which statement best names the tradeoff?

A. A tradeoff exists only when every option is equally bad and no option has any upside. choice	B. The upside and the resource limit are shown as the two sides of the tradeoff. correct
C. Costs never matter if a plan has a benefit. choice	D. The main tradeoff is the unrelated detail: the gate signs are backlit. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is B because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, travel, d1

A feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

B feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

C feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

D feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

tradeoffs-021 | Level 1 | Answer D

Prompt. The landlord can launch an online apartment repair portal, which may reduce unresolved repair requests. But the plan requires staff time that could be used for other housing work. Which statement best names the tradeoff?

A. Costs never matter if a plan has a benefit. choice	B. A tradeoff exists only when every option is equally bad and no option has any upside. choice
C. The main tradeoff is the unrelated detail: the repair portal uses a house logo. choice	D. It notices that the plan may help, but only by using something limited. correct

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is D because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, housing, d1

A feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

B feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

C feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

D feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

tradeoffs-022 | Level 1 | Answer C

Prompt. The cafeteria can move fruit bowls to the front of the cafeteria line, which may increase fruit purchases. But the plan requires staff time that could be used for other food work. Which statement best names the tradeoff?

A. A tradeoff exists only when every option is equally bad and no option has any upside. choice	B. Costs never matter if a plan has a benefit. choice
C. The plan's possible payoff and resource cost are connected in the choice. correct	D. The main tradeoff is the unrelated detail: the fruit bowls are ceramic. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is C because it shows what is gained and what is given up, delayed, or risked.

A feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

B feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

C feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

D feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

tradeoffs-025 | Level 1 | Answer D

Prompt. The police department can send body-camera activation reminders before patrol shifts, which may reduce missing-camera-footage reports. But the plan requires staff time that could be used for other governance work. Which statement best names the tradeoff?

A. A tradeoff exists only when every option is equally bad and no option has any upside. choice	B. The main tradeoff is the unrelated detail: the reminder tone is two beeps. choice
C. Costs never matter if a plan has a benefit. choice	D. It says the plan may improve something, but resources still have to be shared. correct

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is D because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, governance, d1

A feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

B feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

C feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

D feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

tradeoffs-026 | Level 1 | Answer C

Prompt. The election office can offer online mail-ballot tracking, which may reduce phone calls asking ballot status. But the plan requires staff time that could be used for other election administration work. Which statement best names the tradeoff?

A. Costs never matter if a plan has a benefit. choice	B. A tradeoff exists only when every option is equally bad and no option has any upside. choice
C. It names the possible benefit and the real cost so both sides are visible. correct	D. The main tradeoff is the unrelated detail: the ballot-tracking page uses county colors. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is C because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, election administration, d1

A feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

B feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

C feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

D feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

tradeoffs-027 | Level 1 | Answer B

Prompt. The tutoring app can send spaced-review prompts for language vocabulary, which may increase vocabulary retention quiz scores. But the plan requires staff time that could be used for other learning work. Which statement best names the tradeoff?

A. The main tradeoff is the unrelated detail: the review prompts use a bell icon. choice	B. It weighs the hoped-for result against the resources the plan would take. correct
C. Costs never matter if a plan has a benefit. choice	D. A tradeoff exists only when every option is equally bad and no option has any upside. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is B because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, learning, d1

A feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

B feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

C feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

D feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

tradeoffs-028 | Level 1 | Answer A

Prompt. The gym can offer a beginner gym orientation, which may reduce new-member cancellations. But the plan requires staff time that could be used for other fitness work. Which statement best names the tradeoff?

A. The benefit and the cost are counted as parts of the same decision. correct	B. A tradeoff exists only when every option is equally bad and no option has any upside. choice
C. Costs never matter if a plan has a benefit. choice	D. The main tradeoff is the unrelated detail: the orientation mats are black. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is A because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, fitness, d1

A feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

B feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

C feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

D feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

tradeoffs-029 | Level 1 | Answer D

Prompt. The insurer can send weekly safe-driving feedback, which may reduce reported minor crashes. But the plan requires staff time that could be used for other insurance work. Which statement best names the tradeoff?

A. A tradeoff exists only when every option is equally bad and no option has any upside. choice	B. Costs never matter if a plan has a benefit. choice
C. The main tradeoff is the unrelated detail: the feedback dashboard uses star ratings. choice	D. The plan could help, but another need might get less attention. correct

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is D because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, insurance, d1

A feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

B feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

C feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

D feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

tradeoffs-030 | Level 1 | Answer C

Prompt. The newsroom can place corrections at the top of articles, which may increase reader trust ratings. But the plan requires staff time that could be used for other media work. Which statement best names the tradeoff?

A. A tradeoff exists only when every option is equally bad and no option has any upside. choice	B. The main tradeoff is the unrelated detail: the correction box has a gray border. choice
C. Both sides stay in view: possible improvement and limited resources. correct	D. Costs never matter if a plan has a benefit. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is C because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, media, d1

A feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

B feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

C feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

D feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

tradeoffs-031 | Level 1 | Answer A

Prompt. The farmers market can require clearer price signs at vendor stalls, which may reduce price disputes. But the plan requires staff time that could be used for other local commerce work. Which statement best names the tradeoff?

A. It points out what the plan might improve and what it would require in return. correct	B. A tradeoff exists only when every option is equally bad and no option has any upside. choice
C. Costs never matter if a plan has a benefit. choice	D. The main tradeoff is the unrelated detail: the stall price signs are laminated. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is A because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, local commerce, d1

A feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

B feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

C feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

D feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

tradeoffs-032 | Level 1 | Answer B

Prompt. The hotel can send quiet-hours text reminders to hotel guests, which may reduce noise complaints from guest rooms. But the plan requires staff time that could be used for other hospitality work. Which statement best names the tradeoff?

A. The main tradeoff is the unrelated detail: the quiet-hours text reminder uses a small moon icon. choice	B. It compares the result people want with the time, money, or attention required. correct
C. Costs never matter if a plan has a benefit. choice	D. A tradeoff exists only when every option is equally bad and no option has any upside. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is B because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, hospitality, d1

A feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

B feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

C feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

D feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

Level 2

Level 2 keeps the same skill but adds more realistic wording and more tempting distractors.

tradeoffs-033 | Level 2 | Answer D

Prompt. The city council can extend evening bus service until midnight, which may reduce late-shift commute complaints. But the plan uses money that could fund a different transportation need. Which statement best names the tradeoff?

A. The main tradeoff is the unrelated detail: the new buses were repainted blue. choice	B. Costs never matter if a plan has a benefit. choice
C. A tradeoff exists only when every option is equally bad and no option has any upside. choice	D. It compares the result people want with the time, money, or attention required. correct

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is D because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, transportation, d2

A feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

B feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

C feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

D feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

tradeoffs-034 | Level 2 | Answer B

Prompt. The school board can require phone lockers during class, which may reduce classroom disruption reports. But the plan uses money that could fund a different education need. Which statement best names the tradeoff?

A. The main tradeoff is the unrelated detail: the lockers are installed near the gym. choice	B. It avoids looking only at the upside by including the cost in the judgment. correct
C. Costs never matter if a plan has a benefit. choice	D. A tradeoff exists only when every option is equally bad and no option has any upside. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is B because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, education, d2

A feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

B feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

C feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

D feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

tradeoffs-035 | Level 2 | Answer C

Prompt. The hospital can send medication reminder texts before evening doses, which may reduce missed-dose reports. But the plan uses money that could fund a different health need. Which statement best names the tradeoff?

A. A tradeoff exists only when every option is equally bad and no option has any upside. choice	B. The main tradeoff is the unrelated detail: the text messages use a green pill icon. choice
C. It notices that helping one goal may leave less support for another goal. correct	D. Costs never matter if a plan has a benefit. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is C because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, health, d2

A feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

B feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

C feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

D feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

tradeoffs-036 | Level 2 | Answer D

Prompt. The company can test a Monday-through-Thursday workweek, which may reduce staff resignations. But the plan uses money that could fund a different workplace need. Which statement best names the tradeoff?

A. The main tradeoff is the unrelated detail: the test calendar starts on a Monday. choice	B. A tradeoff exists only when every option is equally bad and no option has any upside. choice
C. Costs never matter if a plan has a benefit. choice	D. It looks at the possible improvement while remembering the resources are limited. correct

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is D because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, workplace, d2

A feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

B feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

C feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

D feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

tradeoffs-037 | Level 2 | Answer A

Prompt. The grocery chain can add larger unit-price labels on shelf tags, which may reduce shopper overpayment complaints. But the plan uses money that could fund a different retail need. Which statement best names the tradeoff?

A. It points out what the plan might improve and what it would require in return. correct	B. A tradeoff exists only when every option is equally bad and no option has any upside. choice
C. Costs never matter if a plan has a benefit. choice	D. The main tradeoff is the unrelated detail: the shelf labels use bold black numbers. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is A because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, retail, d2

A feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

B feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

C feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

D feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

tradeoffs-038 | Level 2 | Answer B

Prompt. The library can waive late fines for children's books, which may increase library card renewals. But the plan uses money that could fund a different public services need. Which statement best names the tradeoff?

A. A tradeoff exists only when every option is equally bad and no option has any upside. choice	B. It asks whether the expected gain is worth the resources the plan would use. correct
C. Costs never matter if a plan has a benefit. choice	D. The main tradeoff is the unrelated detail: the children's-book checkout desk moved six feet. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is B because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, public services, d2

A feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

B feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

C feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

D feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

tradeoffs-039 | Level 2 | Answer C

Prompt. The platform can require two-factor login for site administrators, which may reduce admin account takeovers. But the plan uses money that could fund a different technology need. Which statement best names the tradeoff?

A. A tradeoff exists only when every option is equally bad and no option has any upside. choice	B. Costs never matter if a plan has a benefit. choice
C. The benefit matters, but the cost also has to be counted. correct	D. The main tradeoff is the unrelated detail: the login button changed from green to blue. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is C because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, technology, d2

A feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

B feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

C feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

D feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

tradeoffs-040 | Level 2 | Answer A

Prompt. The neighborhood association can add brighter LED streetlights on Maple Street, which may reduce reported thefts. But the plan uses money that could fund a different public safety need. Which statement best names the tradeoff?

A. One group or need may benefit while another waits longer. correct	B. A tradeoff exists only when every option is equally bad and no option has any upside. choice
C. The main tradeoff is the unrelated detail: the new light poles are made of aluminum. choice	D. Costs never matter if a plan has a benefit. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is A because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, public safety, d2

A feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

B feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

C feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

D feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

tradeoffs-041 | Level 2 | Answer C

Prompt. The university can expand peer tutoring in statistics, which may increase course pass rates. But the plan uses money that could fund a different education need. Which statement best names the tradeoff?

A. Costs never matter if a plan has a benefit. choice	B. A tradeoff exists only when every option is equally bad and no option has any upside. choice
C. It names the hoped-for gain and the limit that makes the choice difficult. correct	D. The main tradeoff is the unrelated detail: the tutoring room has new chairs. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is C because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, education, d2

A feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

B feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

C feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

D feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

tradeoffs-042 | Level 2 | Answer D

Prompt. The restaurant group can show calorie labels on printed lunch menus, which may reduce dessert orders. But the plan uses money that could fund a different nutrition need. Which statement best names the tradeoff?

A. The main tradeoff is the unrelated detail: the lunch menus are printed on thicker paper. choice	B. A tradeoff exists only when every option is equally bad and no option has any upside. choice
C. Costs never matter if a plan has a benefit. choice	D. The gain people hope for is named along with the cost of getting it. correct

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is D because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, nutrition, d2

A feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

C feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

D feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

tradeoffs-043 | Level 2 | Answer B

Prompt. The bank can send overdraft warning texts before fees post, which may reduce overdraft fees. But the plan uses money that could fund a different finance need. Which statement best names the tradeoff?

A. The main tradeoff is the unrelated detail: the warning texts arrive from a short code. choice	B. The desired result and the required resources stay in the same decision. correct
C. A tradeoff exists only when every option is equally bad and no option has any upside. choice	D. Costs never matter if a plan has a benefit. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is B because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, finance, d2

A feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

B feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

C feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

D feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

tradeoffs-044 | Level 2 | Answer A

Prompt. The park service can use timed-entry passes for weekend trail visits, which may reduce trail crowding complaints. But the plan uses money that could fund a different environment need. Which statement best names the tradeoff?

A. The upside and the downside are kept together instead of separated. correct	B. The main tradeoff is the unrelated detail: the digital passes include a small trail map. choice
C. A tradeoff exists only when every option is equally bad and no option has any upside. choice	D. Costs never matter if a plan has a benefit. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is A because it shows what is gained and what is given up, delayed, or risked.

A feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

B feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

C feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

D feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

tradeoffs-046 | Level 2 | Answer C

Prompt. The sports league can add mandatory sideline concussion checks, which may reduce repeat head injuries. But the plan uses money that could fund a different sports need. Which statement best names the tradeoff?

A. Costs never matter if a plan has a benefit. choice	B. A tradeoff exists only when every option is equally bad and no option has any upside. choice
C. The upside and the resource limit are shown as the two sides of the tradeoff. correct	D. The main tradeoff is the unrelated detail: the concussion checklist is printed on yellow paper. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is C because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, sports, d2

A feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

B feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

C feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

D feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

tradeoffs-047 | Level 2 | Answer B

Prompt. The nonprofit can send donation receipts within one day, which may increase donor retention. But the plan uses money that could fund a different nonprofit need. Which statement best names the tradeoff?

A. Costs never matter if a plan has a benefit. choice	B. The possible improvement and the required cost are kept together. correct
C. A tradeoff exists only when every option is equally bad and no option has any upside. choice	D. The main tradeoff is the unrelated detail: the receipt email subject line changed. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is B because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, nonprofit, d2

A feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

B feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

C feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

D feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

tradeoffs-048 | Level 2 | Answer D

Prompt. The warehouse can offer monthly lifting-safety and ergonomic training, which may reduce back-injury claims. But the plan uses money that could fund a different workplace safety need. Which statement best names the tradeoff?

A. Costs never matter if a plan has a benefit. choice	B. A tradeoff exists only when every option is equally bad and no option has any upside. choice
C. The main tradeoff is the unrelated detail: the training room has a ceiling-mounted projector. choice	D. The plan's possible payoff and resource cost are connected in the choice. correct

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is D because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, workplace safety, d2

A feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

B feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

C feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

D feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

tradeoffs-049 | Level 2 | Answer B

Prompt. The city sanitation office can place compost bins in apartment lobbies, which may reduce landfill waste from participating buildings. But the plan uses money that could fund a different environment need. Which statement best names the tradeoff?

A. The main tradeoff is the unrelated detail: the lobby compost bins have foot pedals. choice	B. It judges the plan by looking at both what it gains and what it uses. correct
C. A tradeoff exists only when every option is equally bad and no option has any upside. choice	D. Costs never matter if a plan has a benefit. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is B because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, environment, d2

A feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

B feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

C feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

D feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

tradeoffs-050 | Level 2 | Answer D

Prompt. The app maker can make new user profiles private by default, which may reduce publicly visible profiles. But the plan uses money that could fund a different technology need. Which statement best names the tradeoff?

A. A tradeoff exists only when every option is equally bad and no option has any upside. choice	B. The main tradeoff is the unrelated detail: the privacy screen uses a shield icon. choice
C. Costs never matter if a plan has a benefit. choice	D. It recognizes that choosing this plan may push another useful option aside. correct

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is D because it shows what is gained and what is given up, delayed, or risked.

A feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

B feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

C feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

D feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

tradeoffs-051 | Level 2 | Answer A

Prompt. The clinic can reserve same-day appointment slots, which may reduce patient no-show rates. But the plan uses money that could fund a different health need. Which statement best names the tradeoff?

A. It says the plan may improve something, but resources still have to be shared. correct	B. A tradeoff exists only when every option is equally bad and no option has any upside. choice
C. The main tradeoff is the unrelated detail: the appointment cards are white. choice	D. Costs never matter if a plan has a benefit. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is A because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, health, d2

- A feedback (Correct):** Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.
- B feedback (Distractor):** Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.
- C feedback (Distractor):** Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.
- D feedback (Distractor):** Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

tradeoffs-052 | Level 2 | Answer B

Prompt. The airline can board passengers by seat zone, which may reduce average boarding time. But the plan uses money that could fund a different travel need. Which statement best names the tradeoff?

A. A tradeoff exists only when every option is equally bad and no option has any upside. choice	B. It notices that the plan may help, but only by using something limited. correct
C. The main tradeoff is the unrelated detail: the gate signs are backlit. choice	D. Costs never matter if a plan has a benefit. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is B because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, travel, d2

- A feedback (Distractor):** Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.
- B feedback (Correct):** Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.
- C feedback (Distractor):** Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.
- D feedback (Distractor):** Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

tradeoffs-053 | Level 2 | Answer A

Prompt. The landlord can launch an online apartment repair portal, which may reduce unresolved repair requests. But the plan uses money that could fund a different housing need. Which statement best names the tradeoff?

A. It weighs the hoped-for result against the resources the plan would take. correct	B. The main tradeoff is the unrelated detail: the repair portal uses a house logo. choice
C. A tradeoff exists only when every option is equally bad and no option has any upside. choice	D. Costs never matter if a plan has a benefit. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is A because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, housing, d2

- A feedback (Correct):** Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.
- B feedback (Distractor):** Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.
- C feedback (Distractor):** Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.
- D feedback (Distractor):** Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

tradeoffs-054 | Level 2 | Answer C

Prompt. The cafeteria can move fruit bowls to the front of the cafeteria line, which may increase fruit purchases. But the plan uses money that could fund a different food need. Which statement best names the tradeoff?

A. The main tradeoff is the unrelated detail: the fruit bowls are ceramic. choice	B. A tradeoff exists only when every option is equally bad and no option has any upside. choice
C. The benefit and the cost are counted as parts of the same decision. correct	D. Costs never matter if a plan has a benefit. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is C because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, food, d2

A feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

B feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

C feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

D feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

tradeoffs-055 | Level 2 | Answer C

Prompt. The call center can give support agents weekly script coaching, which may reduce customer complaint rates. But the plan uses money that could fund a different customer support need. Which statement best names the tradeoff?

A. The main tradeoff is the unrelated detail: the coaching slides use blue headers. choice	B. Costs never matter if a plan has a benefit. choice
C. The plan could help, but another need might get less attention. correct	D. A tradeoff exists only when every option is equally bad and no option has any upside. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is C because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, customer support, d2

A feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

B feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

C feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

D feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

tradeoffs-056 | Level 2 | Answer D

Prompt. The water utility can send automatic household water-leak alerts, which may reduce average household water use. But the plan uses money that could fund a different utilities need. Which statement best names the tradeoff?

A. A tradeoff exists only when every option is equally bad and no option has any upside. choice	B. The main tradeoff is the unrelated detail: the water-leak alert screen includes a blue droplet icon. choice
C. Costs never matter if a plan has a benefit. choice	D. Both sides stay in view: possible improvement and limited resources. correct

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is D because it shows what is gained and what is given up, delayed, or risked.

- A feedback (Distractor):** Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.
- B feedback (Distractor):** Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.
- C feedback (Distractor):** Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.
- D feedback (Correct):** Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

tradeoffs-057 | Level 2 | Answer C

Prompt. The police department can send body-camera activation reminders before patrol shifts, which may reduce missing-camera-footage reports. But the plan uses money that could fund a different governance need. Which statement best names the tradeoff?

A. The main tradeoff is the unrelated detail: the reminder tone is two beeps. choice	B. Costs never matter if a plan has a benefit. choice
C. It names the possible benefit and the real cost so both sides are visible. correct	D. A tradeoff exists only when every option is equally bad and no option has any upside. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is C because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, governance, d2

- A feedback (Distractor):** Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.
- B feedback (Distractor):** Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.
- C feedback (Correct):** Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.
- D feedback (Distractor):** Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

tradeoffs-058 | Level 2 | Answer A

Prompt. The election office can offer online mail-ballot tracking, which may reduce phone calls asking ballot status. But the plan uses money that could fund a different election administration need. Which statement best names the tradeoff?

A. It compares the result people want with the time, money, or attention required. correct	B. Costs never matter if a plan has a benefit. choice
C. A tradeoff exists only when every option is equally bad and no option has any upside. choice	D. The main tradeoff is the unrelated detail: the ballot-tracking page uses county colors. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is A because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, election administration, d2

- A feedback (Correct):** Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.
- B feedback (Distractor):** Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.
- C feedback (Distractor):** Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.
- D feedback (Distractor):** Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

tradeoffs-059 | Level 2 | Answer C

Prompt. The tutoring app can send spaced-review prompts for language vocabulary, which may increase vocabulary retention quiz scores. But the plan uses money that could fund a different learning need. Which statement best names the tradeoff?

A. The main tradeoff is the unrelated detail: the review prompts use a bell icon. choice	B. Costs never matter if a plan has a benefit. choice
C. It avoids looking only at the upside by including the cost in the judgment. correct	D. A tradeoff exists only when every option is equally bad and no option has any upside. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is C because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, learning, d2

A feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

B feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

C feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

D feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

tradeoffs-060 | Level 2 | Answer A

Prompt. The gym can offer a beginner gym orientation, which may reduce new-member cancellations. But the plan uses money that could fund a different fitness need. Which statement best names the tradeoff?

A. It notices that helping one goal may leave less support for another goal. correct	B. The main tradeoff is the unrelated detail: the orientation mats are black. choice
C. A tradeoff exists only when every option is equally bad and no option has any upside. choice	D. Costs never matter if a plan has a benefit. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is A because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, fitness, d2

A feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

B feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

C feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

D feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

tradeoffs-061 | Level 2 | Answer D

Prompt. The insurer can send weekly safe-driving feedback, which may reduce reported minor crashes. But the plan uses money that could fund a different insurance need. Which statement best names the tradeoff?

A. A tradeoff exists only when every option is equally bad and no option has any upside. choice	B. Costs never matter if a plan has a benefit. choice
C. The main tradeoff is the unrelated detail: the feedback dashboard uses star ratings. choice	D. It looks at the possible improvement while remembering the resources are limited. correct

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is D because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, insurance, d2

A feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

B feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

C feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

D feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

tradeoffs-062 | Level 2 | Answer B

Prompt. The newsroom can place corrections at the top of articles, which may increase reader trust ratings. But the plan uses money that could fund a different media need. Which statement best names the tradeoff?

A. A tradeoff exists only when every option is equally bad and no option has any upside. choice	B. It points out what the plan might improve and what it would require in return. correct
C. Costs never matter if a plan has a benefit. choice	D. The main tradeoff is the unrelated detail: the correction box has a gray border. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is B because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, media, d2

A feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

B feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

C feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

D feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

tradeoffs-063 | Level 2 | Answer B

Prompt. The farmers market can require clearer price signs at vendor stalls, which may reduce price disputes. But the plan uses money that could fund a different local commerce need. Which statement best names the tradeoff?

A. The main tradeoff is the unrelated detail: the stall price signs are laminated. choice	B. It asks whether the expected gain is worth the resources the plan would use. correct
C. Costs never matter if a plan has a benefit. choice	D. A tradeoff exists only when every option is equally bad and no option has any upside. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is B because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, local commerce, d2

A feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

B feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

C feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

D feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

tradeoffs-064 | Level 2 | Answer A

Prompt. The hotel can send quiet-hours text reminders to hotel guests, which may reduce noise complaints from guest rooms. But the plan uses money that could fund a different hospitality need. Which statement best names the tradeoff?

A. The benefit matters, but the cost also has to be counted. correct	B. The main tradeoff is the unrelated detail: the quiet-hours text reminder uses a small moon icon. choice
C. A tradeoff exists only when every option is equally bad and no option has any upside. choice	D. Costs never matter if a plan has a benefit. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is A because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, hospitality, d2

A feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

B feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

C feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

D feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

Level 3

Level 3 asks for steadier discrimination: the right answer is still objective, but the wrong answers often sound plausible.

tradeoffs-065 | Level 3 | Answer D

Prompt. The city council can extend evening bus service until midnight, which may reduce late-shift commute complaints. But the plan may move resources away from a smaller group that was not included in the test. Which statement best names the tradeoff?

A. The main tradeoff is the unrelated detail: the new buses were repainted blue. choice	B. A tradeoff exists only when every option is equally bad and no option has any upside. choice
C. Costs never matter if a plan has a benefit. choice	D. The benefit matters, but the cost also has to be counted. correct

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is D because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, transportation, d3

A feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

B feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

C feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

D feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

tradeoffs-066 | Level 3 | Answer C

Prompt. The school board can require phone lockers during class, which may reduce classroom disruption reports. But the plan may move resources away from a smaller group that was not included in the test. Which statement best names the tradeoff?

A. Costs never matter if a plan has a benefit. choice	B. A tradeoff exists only when every option is equally bad and no option has any upside. choice
C. One group or need may benefit while another waits longer. correct	D. The main tradeoff is the unrelated detail: the lockers are installed near the gym. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is C because it shows what is gained and what is given up, delayed, or risked.

A feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

B feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

C feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

D feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

tradeoffs-068 | Level 3 | Answer A

Prompt. The company can test a Monday-through-Thursday workweek, which may reduce staff resignations. But the plan may move resources away from a smaller group that was not included in the test. Which statement best names the tradeoff?

A. The gain people hope for is named along with the cost of getting it. correct	B. Costs never matter if a plan has a benefit. choice
C. The main tradeoff is the unrelated detail: the test calendar starts on a Monday. choice	D. A tradeoff exists only when every option is equally bad and no option has any upside. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is A because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, workplace, d3

A feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

B feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

C feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

D feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

tradeoffs-069 | Level 3 | Answer D

Prompt. The grocery chain can add larger unit-price labels on shelf tags, which may reduce shopper overpayment complaints. But the plan may move resources away from a smaller group that was not included in the test. Which statement best names the tradeoff?

A. The main tradeoff is the unrelated detail: the shelf labels use bold black numbers. choice	B. A tradeoff exists only when every option is equally bad and no option has any upside. choice
C. Costs never matter if a plan has a benefit. choice	D. It asks whether the expected gain is worth the resources the plan would use. correct

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is D because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, retail, d3

A feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

B feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

C feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

D feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

tradeoffs-070 | Level 3 | Answer C

Prompt. The library can waive late fines for children's books, which may increase library card renewals. But the plan may move resources away from a smaller group that was not included in the test. Which statement best names the tradeoff?

A. Costs never matter if a plan has a benefit. choice	B. A tradeoff exists only when every option is equally bad and no option has any upside. choice
C. The upside and the downside are kept together instead of separated. correct	D. The main tradeoff is the unrelated detail: the children's-book checkout desk moved six feet. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is C because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, public services, d3

A feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

B feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

C feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

D feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

tradeoffs-071 | Level 3 | Answer B

Prompt. The platform can require two-factor login for site administrators, which may reduce admin account takeovers. But the plan may move resources away from a smaller group that was not included in the test. Which statement best names the tradeoff?

A. Costs never matter if a plan has a benefit. choice	B. The possible help is real, but the answer also names what may be delayed. correct
C. The main tradeoff is the unrelated detail: the login button changed from green to blue. choice	D. A tradeoff exists only when every option is equally bad and no option has any upside. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is B because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, technology, d3

A feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

B feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

C feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

D feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

tradeoffs-072 | Level 3 | Answer A

Prompt. The neighborhood association can add brighter LED streetlights on Maple Street, which may reduce reported thefts. But the plan may move resources away from a smaller group that was not included in the test. Which statement best names the tradeoff?

A. The upside and the resource limit are shown as the two sides of the tradeoff. correct	B. The main tradeoff is the unrelated detail: the new light poles are made of aluminum. choice
C. Costs never matter if a plan has a benefit. choice	D. A tradeoff exists only when every option is equally bad and no option has any upside. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is A because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, public safety, d3

A feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

B feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

C feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

D feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

tradeoffs-073 | Level 3 | Answer D

Prompt. The university can expand peer tutoring in statistics, which may increase course pass rates. But the plan may move resources away from a smaller group that was not included in the test. Which statement best names the tradeoff?

A. The main tradeoff is the unrelated detail: the tutoring room has new chairs. choice	B. A tradeoff exists only when every option is equally bad and no option has any upside. choice
C. Costs never matter if a plan has a benefit. choice	D. The possible improvement and the required cost are kept together. correct

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is D because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, education, d3

- A feedback (Distractor):** Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.
- B feedback (Distractor):** Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.
- C feedback (Distractor):** Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.
- D feedback (Correct):** Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

tradeoffs-074 | Level 3 | Answer C

Prompt. The restaurant group can show calorie labels on printed lunch menus, which may reduce dessert orders. But the plan may move resources away from a smaller group that was not included in the test. Which statement best names the tradeoff?

A. A tradeoff exists only when every option is equally bad and no option has any upside. choice	B. Costs never matter if a plan has a benefit. choice
C. The desired result and the required resources stay in the same decision. correct	D. The main tradeoff is the unrelated detail: the lunch menus are printed on thicker paper. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is C because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, nutrition, d3

- A feedback (Distractor):** Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.
- B feedback (Distractor):** Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.
- C feedback (Correct):** Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.
- D feedback (Distractor):** Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

tradeoffs-075 | Level 3 | Answer A

Prompt. The bank can send overdraft warning texts before fees post, which may reduce overdraft fees. But the plan may move resources away from a smaller group that was not included in the test. Which statement best names the tradeoff?

A. It judges the plan by looking at both what it gains and what it uses. correct	B. The main tradeoff is the unrelated detail: the warning texts arrive from a short code. choice
C. A tradeoff exists only when every option is equally bad and no option has any upside. choice	D. Costs never matter if a plan has a benefit. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is A because it shows what is gained and what is given up, delayed, or risked.

- A feedback (Correct):** Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.
- B feedback (Distractor):** Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.
- C feedback (Distractor):** Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.
- D feedback (Distractor):** Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

tradeoffs-076 | Level 3 | Answer B

Prompt. The park service can use timed-entry passes for weekend trail visits, which may reduce trail crowding complaints. But the plan may move resources away from a smaller group that was not included in the test. Which statement best names the tradeoff?

A. A tradeoff exists only when every option is equally bad and no option has any upside. choice	B. It recognizes that choosing this plan may push another useful option aside. correct
C. The main tradeoff is the unrelated detail: the digital passes include a small trail map. choice	D. Costs never matter if a plan has a benefit. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is B because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, environment, d3

A feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

B feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

C feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

D feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

tradeoffs-077 | Level 3 | Answer C

Prompt. The museum can offer free admission on Fridays, which may increase family visits. But the plan may move resources away from a smaller group that was not included in the test. Which statement best names the tradeoff?

A. A tradeoff exists only when every option is equally bad and no option has any upside. choice	B. Costs never matter if a plan has a benefit. choice
C. It says the plan may improve something, but resources still have to be shared. correct	D. The main tradeoff is the unrelated detail: the Friday tickets are scanned at the east door. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is C because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, culture, d3

A feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

B feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

C feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

D feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

tradeoffs-078 | Level 3 | Answer D

Prompt. The sports league can add mandatory sideline concussion checks, which may reduce repeat head injuries. But the plan may move resources away from a smaller group that was not included in the test. Which statement best names the tradeoff?

A. The main tradeoff is the unrelated detail: the concussion checklist is printed on yellow paper. choice	B. Costs never matter if a plan has a benefit. choice
C. A tradeoff exists only when every option is equally bad and no option has any upside. choice	D. It notices that the plan may help, but only by using something limited. correct

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is D because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, sports, d3

A feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

B feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

C feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

D feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

tradeoffs-079 | Level 3 | Answer A

Prompt. The nonprofit can send donation receipts within one day, which may increase donor retention. But the plan may move resources away from a smaller group that was not included in the test. Which statement best names the tradeoff?

A. The plan's possible payoff and resource cost are connected in the choice. correct	B. Costs never matter if a plan has a benefit. choice
C. The main tradeoff is the unrelated detail: the receipt email subject line changed. choice	D. A tradeoff exists only when every option is equally bad and no option has any upside. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is A because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, nonprofit, d3

A feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

B feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

C feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

D feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

tradeoffs-080 | Level 3 | Answer B

Prompt. The warehouse can offer monthly lifting-safety and ergonomic training, which may reduce back-injury claims. But the plan may move resources away from a smaller group that was not included in the test. Which statement best names the tradeoff?

A. The main tradeoff is the unrelated detail: the training room has a ceiling-mounted projector. choice	B. The benefit and the cost are counted as parts of the same decision. correct
C. Costs never matter if a plan has a benefit. choice	D. A tradeoff exists only when every option is equally bad and no option has any upside. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is B because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, workplace safety, d3

A feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

B feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

C feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

D feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

tradeoffs-081 | Level 3 | Answer C

Prompt. The city sanitation office can place compost bins in apartment lobbies, which may reduce landfill waste from participating buildings. But the plan may move resources away from a smaller group that was not included in the test. Which statement best names the tradeoff?

A. Costs never matter if a plan has a benefit. choice	B. The main tradeoff is the unrelated detail: the lobby compost bins have foot pedals. choice
C. The plan could help, but another need might get less attention. correct	D. A tradeoff exists only when every option is equally bad and no option has any upside. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is C because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, environment, d3

A feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

B feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

C feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

D feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

tradeoffs-082 | Level 3 | Answer D

Prompt. The app maker can make new user profiles private by default, which may reduce publicly visible profiles. But the plan may move resources away from a smaller group that was not included in the test. Which statement best names the tradeoff?

A. Costs never matter if a plan has a benefit. choice	B. The main tradeoff is the unrelated detail: the privacy screen uses a shield icon. choice
C. A tradeoff exists only when every option is equally bad and no option has any upside. choice	D. Both sides stay in view: possible improvement and limited resources. correct

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is D because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, technology, d3

A feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

B feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

C feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

D feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

tradeoffs-083 | Level 3 | Answer A

Prompt. The clinic can reserve same-day appointment slots, which may reduce patient no-show rates. But the plan may move resources away from a smaller group that was not included in the test. Which statement best names the tradeoff?

A. It names the possible benefit and the real cost so both sides are visible. correct	B. Costs never matter if a plan has a benefit. choice
C. The main tradeoff is the unrelated detail: the appointment cards are white. choice	D. A tradeoff exists only when every option is equally bad and no option has any upside. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is A because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, health, d3

A feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

B feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

C feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

D feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

tradeoffs-084 | Level 3 | Answer B

Prompt. The airline can board passengers by seat zone, which may reduce average boarding time. But the plan may move resources away from a smaller group that was not included in the test. Which statement best names the tradeoff?

A. The main tradeoff is the unrelated detail: the gate signs are backlit. choice	B. It weighs the hoped-for result against the resources the plan would take. correct
C. A tradeoff exists only when every option is equally bad and no option has any upside. choice	D. Costs never matter if a plan has a benefit. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is B because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, travel, d3

A feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

B feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

C feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

D feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

tradeoffs-085 | Level 3 | Answer B

Prompt. The landlord can launch an online apartment repair portal, which may reduce unresolved repair requests. But the plan may move resources away from a smaller group that was not included in the test. Which statement best names the tradeoff?

A. A tradeoff exists only when every option is equally bad and no option has any upside. choice	B. It avoids looking only at the upside by including the cost in the judgment. correct
C. Costs never matter if a plan has a benefit. choice	D. The main tradeoff is the unrelated detail: the repair portal uses a house logo. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is B because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, housing, d3

A feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

B feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

C feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

D feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

tradeoffs-086 | Level 3 | Answer A

Prompt. The cafeteria can move fruit bowls to the front of the cafeteria line, which may increase fruit purchases. But the plan may move resources away from a smaller group that was not included in the test. Which statement best names the tradeoff?

A. It notices that helping one goal may leave less support for another goal. correct	B. Costs never matter if a plan has a benefit. choice
C. The main tradeoff is the unrelated detail: the fruit bowls are ceramic. choice	D. A tradeoff exists only when every option is equally bad and no option has any upside. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is A because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, food, d3

A feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

C feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

D feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

tradeoffs-087 | Level 3 | Answer D

Prompt. The call center can give support agents weekly script coaching, which may reduce customer complaint rates. But the plan may move resources away from a smaller group that was not included in the test. Which statement best names the tradeoff?

A. Costs never matter if a plan has a benefit. choice	B. The main tradeoff is the unrelated detail: the coaching slides use blue headers. choice
C. A tradeoff exists only when every option is equally bad and no option has any upside. choice	D. It looks at the possible improvement while remembering the resources are limited. correct

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is D because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, customer support, d3

A feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

B feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

C feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

D feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

tradeoffs-088 | Level 3 | Answer C

Prompt. The water utility can send automatic household water-leak alerts, which may reduce average household water use. But the plan may move resources away from a smaller group that was not included in the test. Which statement best names the tradeoff?

A. The main tradeoff is the unrelated detail: the water-leak alert screen includes a blue droplet icon. choice	B. Costs never matter if a plan has a benefit. choice
C. It points out what the plan might improve and what it would require in return. correct	D. A tradeoff exists only when every option is equally bad and no option has any upside. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is C because it shows what is gained and what is given up, delayed, or risked.

A feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

B feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

C feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

D feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

tradeoffs-089 | Level 3 | Answer B

Prompt. The police department can send body-camera activation reminders before patrol shifts, which may reduce missing-camera-footage reports. But the plan may move resources away from a smaller group that was not included in the test. Which statement best names the tradeoff?

A. The main tradeoff is the unrelated detail: the reminder tone is two beeps. choice	B. It compares the result people want with the time, money, or attention required. correct
C. A tradeoff exists only when every option is equally bad and no option has any upside. choice	D. Costs never matter if a plan has a benefit. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is B because it shows what is gained and what is given up, delayed, or risked.

A feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

B feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

C feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

D feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

tradeoffs-090 | Level 3 | Answer A

Prompt. The election office can offer online mail-ballot tracking, which may reduce phone calls asking ballot status. But the plan may move resources away from a smaller group that was not included in the test. Which statement best names the tradeoff?

A. The benefit matters, but the cost also has to be counted. correct	B. A tradeoff exists only when every option is equally bad and no option has any upside. choice
C. The main tradeoff is the unrelated detail: the ballot-tracking page uses county colors. choice	D. Costs never matter if a plan has a benefit. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is A because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, election administration, d3

A feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

B feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

C feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

D feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

tradeoffs-091 | Level 3 | Answer C

Prompt. The tutoring app can send spaced-review prompts for language vocabulary, which may increase vocabulary retention quiz scores. But the plan may move resources away from a smaller group that was not included in the test. Which statement best names the tradeoff?

A. Costs never matter if a plan has a benefit. choice	B. The main tradeoff is the unrelated detail: the review prompts use a bell icon. choice
C. One group or need may benefit while another waits longer. correct	D. A tradeoff exists only when every option is equally bad and no option has any upside. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is C because it shows what is gained and what is given up, delayed, or risked.

A feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

B feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

C feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

D feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

tradeoffs-092 | Level 3 | Answer A

Prompt. The gym can offer a beginner gym orientation, which may reduce new-member cancellations. But the plan may move resources away from a smaller group that was not included in the test. Which statement best names the tradeoff?

A. It names the hoped-for gain and the limit that makes the choice difficult. correct	B. Costs never matter if a plan has a benefit. choice
C. A tradeoff exists only when every option is equally bad and no option has any upside. choice	D. The main tradeoff is the unrelated detail: the orientation mats are black. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is A because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, fitness, d3

A feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

B feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

C feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

D feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

tradeoffs-093 | Level 3 | Answer D

Prompt. The insurer can send weekly safe-driving feedback, which may reduce reported minor crashes. But the plan may move resources away from a smaller group that was not included in the test. Which statement best names the tradeoff?

A. A tradeoff exists only when every option is equally bad and no option has any upside. choice	B. Costs never matter if a plan has a benefit. choice
C. The main tradeoff is the unrelated detail: the feedback dashboard uses star ratings. choice	D. The gain people hope for is named along with the cost of getting it. correct

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is D because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, insurance, d3

A feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

B feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

C feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

D feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

tradeoffs-094 | Level 3 | Answer C

Prompt. The newsroom can place corrections at the top of articles, which may increase reader trust ratings. But the plan may move resources away from a smaller group that was not included in the test. Which statement best names the tradeoff?

A. Costs never matter if a plan has a benefit. choice	B. A tradeoff exists only when every option is equally bad and no option has any upside. choice
C. It asks whether the expected gain is worth the resources the plan would use. correct	D. The main tradeoff is the unrelated detail: the correction box has a gray border. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is C because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, media, d3

A feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

B feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

C feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

D feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

tradeoffs-095 | Level 3 | Answer B

Prompt. The farmers market can require clearer price signs at vendor stalls, which may reduce price disputes. But the plan may move resources away from a smaller group that was not included in the test. Which statement best names the tradeoff?

A. The main tradeoff is the unrelated detail: the stall price signs are laminated. choice	B. The upside and the downside are kept together instead of separated. correct
C. A tradeoff exists only when every option is equally bad and no option has any upside. choice	D. Costs never matter if a plan has a benefit. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is B because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, local commerce, d3

A feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

B feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

C feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

D feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

tradeoffs-096 | Level 3 | Answer D

Prompt. The hotel can send quiet-hours text reminders to hotel guests, which may reduce noise complaints from guest rooms. But the plan may move resources away from a smaller group that was not included in the test. Which statement best names the tradeoff?

A. A tradeoff exists only when every option is equally bad and no option has any upside. choice	B. The main tradeoff is the unrelated detail: the quiet-hours text reminder uses a small moon icon. choice
C. Costs never matter if a plan has a benefit. choice	D. The possible help is real, but the answer also names what may be delayed. correct

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is D because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, hospitality, d3

A feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

B feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

C feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

D feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

Level 4

Level 4 asks learners to hold more context in mind while applying the same method.

tradeoffs-097 | Level 4 | Answer C

Prompt. The city council can extend evening bus service until midnight, which may reduce late-shift commute complaints. But the plan could create extra work for people who already handle other transportation tasks. Which statement best names the tradeoff?

A. A tradeoff exists only when every option is equally bad and no option has any upside. choice	B. The main tradeoff is the unrelated detail: the new buses were repainted blue. choice
C. The possible help is real, but the answer also names what may be delayed. correct	D. Costs never matter if a plan has a benefit. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is C because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, transportation, d4

A feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

B feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

C feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

D feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

tradeoffs-098 | Level 4 | Answer D

Prompt. The school board can require phone lockers during class, which may reduce classroom disruption reports. But the plan could create extra work for people who already handle other education tasks. Which statement best names the tradeoff?

A. A tradeoff exists only when every option is equally bad and no option has any upside. choice	B. The main tradeoff is the unrelated detail: the lockers are installed near the gym. choice
C. Costs never matter if a plan has a benefit. choice	D. The upside and the resource limit are shown as the two sides of the tradeoff. correct

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is D because it shows what is gained and what is given up, delayed, or risked.

A feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

B feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

C feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

D feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

tradeoffs-099 | Level 4 | Answer A

Prompt. The hospital can send medication reminder texts before evening doses, which may reduce missed-dose reports. But the plan could create extra work for people who already handle other health tasks. Which statement best names the tradeoff?

A. The possible improvement and the required cost are kept together. correct	B. Costs never matter if a plan has a benefit. choice
C. The main tradeoff is the unrelated detail: the text messages use a green pill icon. choice	D. A tradeoff exists only when every option is equally bad and no option has any upside. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is A because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, health, d4

A feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

B feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

C feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

D feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

tradeoffs-100 | Level 4 | Answer B

Prompt. The company can test a Monday-through-Thursday workweek, which may reduce staff resignations. But the plan could create extra work for people who already handle other workplace tasks. Which statement best names the tradeoff?

A. A tradeoff exists only when every option is equally bad and no option has any upside. choice	B. The desired result and the required resources stay in the same decision. correct
C. Costs never matter if a plan has a benefit. choice	D. The main tradeoff is the unrelated detail: the test calendar starts on a Monday. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is B because it shows what is gained and what is given up, delayed, or risked.

A feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

B feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

C feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

D feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

tradeoffs-102 | Level 4 | Answer D

Prompt. The library can waive late fines for children's books, which may increase library card renewals. But the plan could create extra work for people who already handle other public services tasks. Which statement best names the tradeoff?

A. The main tradeoff is the unrelated detail: the children's-book checkout desk moved six feet. choice	B. Costs never matter if a plan has a benefit. choice
C. A tradeoff exists only when every option is equally bad and no option has any upside. choice	D. It recognizes that choosing this plan may push another useful option aside. correct

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is D because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, public services, d4

A feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

B feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

C feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

D feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

tradeoffs-103 | Level 4 | Answer A

Prompt. The platform can require two-factor login for site administrators, which may reduce admin account takeovers. But the plan could create extra work for people who already handle other technology tasks. Which statement best names the tradeoff?

A. It says the plan may improve something, but resources still have to be shared. correct	B. A tradeoff exists only when every option is equally bad and no option has any upside. choice
C. The main tradeoff is the unrelated detail: the login button changed from green to blue. choice	D. Costs never matter if a plan has a benefit. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is A because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, technology, d4

A feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

B feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

C feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

D feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

tradeoffs-104 | Level 4 | Answer B

Prompt. The neighborhood association can add brighter LED streetlights on Maple Street, which may reduce reported thefts. But the plan could create extra work for people who already handle other public safety tasks. Which statement best names the tradeoff?

A. A tradeoff exists only when every option is equally bad and no option has any upside. choice	B. It notices that the plan may help, but only by using something limited. correct
C. Costs never matter if a plan has a benefit. choice	D. The main tradeoff is the unrelated detail: the new light poles are made of aluminum. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is B because it shows what is gained and what is given up, delayed, or risked.

A feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

B feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

C feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

D feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

tradeoffs-105 | Level 4 | Answer C

Prompt. The university can expand peer tutoring in statistics, which may increase course pass rates. But the plan could create extra work for people who already handle other education tasks. Which statement best names the tradeoff?

A. The main tradeoff is the unrelated detail: the tutoring room has new chairs. choice	B. A tradeoff exists only when every option is equally bad and no option has any upside. choice
C. The plan's possible payoff and resource cost are connected in the choice. correct	D. Costs never matter if a plan has a benefit. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is C because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, education, d4

A feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

B feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

C feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

D feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

tradeoffs-106 | Level 4 | Answer D

Prompt. The restaurant group can show calorie labels on printed lunch menus, which may reduce dessert orders. But the plan could create extra work for people who already handle other nutrition tasks. Which statement best names the tradeoff?

A. The main tradeoff is the unrelated detail: the lunch menus are printed on thicker paper. choice	B. A tradeoff exists only when every option is equally bad and no option has any upside. choice
C. Costs never matter if a plan has a benefit. choice	D. It judges the plan by looking at both what it gains and what it uses. correct

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is D because it shows what is gained and what is given up, delayed, or risked.

C feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

D feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

tradeoffs-109 | Level 4 | Answer D

Prompt. The museum can offer free admission on Fridays, which may increase family visits. But the plan could create extra work for people who already handle other culture tasks. Which statement best names the tradeoff?

A. A tradeoff exists only when every option is equally bad and no option has any upside. choice	B. Costs never matter if a plan has a benefit. choice
C. The main tradeoff is the unrelated detail: the Friday tickets are scanned at the east door. choice	D. It names the possible benefit and the real cost so both sides are visible. correct

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is D because it shows what is gained and what is given up, delayed, or risked.

A feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

B feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

C feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

D feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

tradeoffs-114 | Level 4 | Answer C

Prompt. The app maker can make new user profiles private by default, which may reduce publicly visible profiles. But the plan could create extra work for people who already handle other technology tasks. Which statement best names the tradeoff?

A. The main tradeoff is the unrelated detail: the privacy screen uses a shield icon. choice	B. Costs never matter if a plan has a benefit. choice
C. It points out what the plan might improve and what it would require in return. correct	D. A tradeoff exists only when every option is equally bad and no option has any upside. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is C because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, technology, d4

A feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

B feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

C feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

D feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

tradeoffs-115 | Level 4 | Answer B

Prompt. The clinic can reserve same-day appointment slots, which may reduce patient no-show rates. But the plan could create extra work for people who already handle other health tasks. Which statement best names the tradeoff?

A. The main tradeoff is the unrelated detail: the appointment cards are white. choice	B. It compares the result people want with the time, money, or attention required. correct
C. A tradeoff exists only when every option is equally bad and no option has any upside. choice	D. Costs never matter if a plan has a benefit. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is B because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, health, d4

A feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

B feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

C feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

D feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

tradeoffs-116 | Level 4 | Answer A

Prompt. The airline can board passengers by seat zone, which may reduce average boarding time. But the plan could create extra work for people who already handle other travel tasks. Which statement best names the tradeoff?

A. It avoids looking only at the upside by including the cost in the judgment. correct	B. A tradeoff exists only when every option is equally bad and no option has any upside. choice
C. The main tradeoff is the unrelated detail: the gate signs are backlit. choice	D. Costs never matter if a plan has a benefit. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is A because it shows what is gained and what is given up, delayed, or risked.

- C feedback (Distractor):** Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.
- D feedback (Correct):** Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

tradeoffs-119 | Level 4 | Answer A

Prompt. The call center can give support agents weekly script coaching, which may reduce customer complaint rates. But the plan could create extra work for people who already handle other customer support tasks. Which statement best names the tradeoff?

A. The gain people hope for is named along with the cost of getting it. correct choice	B. Costs never matter if a plan has a benefit. choice
C. A tradeoff exists only when every option is equally bad and no option has any upside. choice	D. The main tradeoff is the unrelated detail: the coaching slides use blue headers. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is A because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, customer support, d4

A feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

B feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

C feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

D feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

tradeoffs-120 | Level 4 | Answer B

Prompt. The water utility can send automatic household water-leak alerts, which may reduce average household water use. But the plan could create extra work for people who already handle other utilities tasks. Which statement best names the tradeoff?

A. The main tradeoff is the unrelated detail: the water-leak alert screen includes a blue droplet icon. choice	B. It asks whether the expected gain is worth the resources the plan would use. correct choice
C. Costs never matter if a plan has a benefit. choice	D. A tradeoff exists only when every option is equally bad and no option has any upside. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is B because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, utilities, d4

A feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

B feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

C feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

D feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

tradeoffs-121 | Level 4 | Answer C

Prompt. The police department can send body-camera activation reminders before patrol shifts, which may reduce missing-camera-footage reports. But the plan could create extra work for people who already handle other governance tasks. Which statement best names the tradeoff?

A. A tradeoff exists only when every option is equally bad and no option has any upside. choice	B. Costs never matter if a plan has a benefit. choice
C. The benefit matters, but the cost also has to be counted. correct	D. The main tradeoff is the unrelated detail: the reminder tone is two beeps. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is C because it shows what is gained and what is given up, delayed, or risked.

A feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

B feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

C feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

D feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

tradeoffs-122 | Level 4 | Answer D

Prompt. The election office can offer online mail-ballot tracking, which may reduce phone calls asking ballot status. But the plan could create extra work for people who already handle other election administration tasks. Which statement best names the tradeoff?

A. Costs never matter if a plan has a benefit. choice	B. The main tradeoff is the unrelated detail: the ballot-tracking page uses county colors. choice
C. A tradeoff exists only when every option is equally bad and no option has any upside. choice	D. The possible help is real, but the answer also names what may be delayed. correct

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is D because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, election administration, d4

A feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

B feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

C feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

D feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

tradeoffs-123 | Level 4 | Answer A

Prompt. The tutoring app can send spaced-review prompts for language vocabulary, which may increase vocabulary retention quiz scores. But the plan could create extra work for people who already handle other learning tasks. Which statement best names the tradeoff?

A. The upside and the resource limit are shown as the two sides of the tradeoff. correct	B. Costs never matter if a plan has a benefit. choice
C. A tradeoff exists only when every option is equally bad and no option has any upside. choice	D. The main tradeoff is the unrelated detail: the review prompts use a bell icon. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is A because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, learning, d4

A feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

B feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

C feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

D feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

tradeoffs-124 | Level 4 | Answer B

Prompt. The gym can offer a beginner gym orientation, which may reduce new-member cancellations. But the plan could create extra work for people who already handle other fitness tasks. Which statement best names the tradeoff?

A. The main tradeoff is the unrelated detail: the orientation mats are black. choice	B. The possible improvement and the required cost are kept together. correct
C. Costs never matter if a plan has a benefit. choice	D. A tradeoff exists only when every option is equally bad and no option has any upside. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is B because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, fitness, d4

A feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

B feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

C feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

D feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

tradeoffs-125 | Level 4 | Answer A

Prompt. The insurer can send weekly safe-driving feedback, which may reduce reported minor crashes. But the plan could create extra work for people who already handle other insurance tasks. Which statement best names the tradeoff?

A. The desired result and the required resources stay in the same decision. correct	B. Costs never matter if a plan has a benefit. choice
C. A tradeoff exists only when every option is equally bad and no option has any upside. choice	D. The main tradeoff is the unrelated detail: the feedback dashboard uses star ratings. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is A because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, insurance, d4

A feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

B feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

C feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

D feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

tradeoffs-126 | Level 4 | Answer B

Prompt. The newsroom can place corrections at the top of articles, which may increase reader trust ratings. But the plan could create extra work for people who already handle other media tasks. Which statement best names the tradeoff?

A. The main tradeoff is the unrelated detail: the correction box has a gray border. choice	B. The upside and the downside are kept together instead of separated. correct
C. A tradeoff exists only when every option is equally bad and no option has any upside. choice	D. Costs never matter if a plan has a benefit. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is B because it shows what is gained and what is given up, delayed, or risked.

A feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

B feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

C feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

D feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

tradeoffs-131 | Level 5 | Answer D

Prompt. The hospital can send medication reminder texts before evening doses, which may reduce missed-dose reports. But the plan may help patients over 60 while making another group's problem wait longer. Which statement best names the tradeoff?

A. Costs never matter if a plan has a benefit. choice	B. The main tradeoff is the unrelated detail: the text messages use a green pill icon. choice
C. A tradeoff exists only when every option is equally bad and no option has any upside. choice	D. The plan's possible payoff and resource cost are connected in the choice. correct

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is D because it shows what is gained and what is given up, delayed, or risked.

A feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

B feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

C feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

D feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

tradeoffs-138 | Level 5 | Answer B

Prompt. The restaurant group can show calorie labels on printed lunch menus, which may reduce dessert orders. But the plan may help lunch customers while making another group's problem wait longer. Which statement best names the tradeoff?

A. A tradeoff exists only when every option is equally bad and no option has any upside. choice	B. The plan could help, but another need might get less attention. correct
C. The main tradeoff is the unrelated detail: the lunch menus are printed on thicker paper. choice	D. Costs never matter if a plan has a benefit. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is B because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, nutrition, d5

A feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

B feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

C feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

D feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

tradeoffs-139 | Level 5 | Answer A

Prompt. The bank can send overdraft warning texts before fees post, which may reduce overdraft fees. But the plan may help checking-account customers while making another group's problem wait longer. Which statement best names the tradeoff?

A. It looks at the possible improvement while remembering the resources are limited. correct	B. The main tradeoff is the unrelated detail: the warning texts arrive from a short code. choice
C. Costs never matter if a plan has a benefit. choice	D. A tradeoff exists only when every option is equally bad and no option has any upside. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is A because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, finance, d5

A feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

B feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

C feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

D feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

tradeoffs-140 | Level 5 | Answer B

Prompt. The park service can use timed-entry passes for weekend trail visits, which may reduce trail crowding complaints. But the plan may help weekend trail hikers while making another group's problem wait longer. Which statement best names the tradeoff?

A. Costs never matter if a plan has a benefit. choice	B. It points out what the plan might improve and what it would require in return. correct
C. A tradeoff exists only when every option is equally bad and no option has any upside. choice	D. The main tradeoff is the unrelated detail: the digital passes include a small trail map. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is B because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, environment, d5

A feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

B feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

C feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

D feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

tradeoffs-141 | Level 5 | Answer C

Prompt. The museum can offer free admission on Fridays, which may increase family visits. But the plan may help local families while making another group's problem wait longer. Which statement best names the tradeoff?

A. Costs never matter if a plan has a benefit. choice	B. The main tradeoff is the unrelated detail: the Friday tickets are scanned at the east door. choice
C. It compares the result people want with the time, money, or attention required. correct	D. A tradeoff exists only when every option is equally bad and no option has any upside. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is C because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, culture, d5

A feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

B feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

C feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

D feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

tradeoffs-142 | Level 5 | Answer D

Prompt. The sports league can add mandatory sideline concussion checks, which may reduce repeat head injuries. But the plan may help youth soccer players while making another group's problem wait longer. Which statement best names the tradeoff?

A. Costs never matter if a plan has a benefit. choice	B. A tradeoff exists only when every option is equally bad and no option has any upside. choice
C. The main tradeoff is the unrelated detail: the concussion checklist is printed on yellow paper. choice	D. It avoids looking only at the upside by including the cost in the judgment. correct

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is D because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, sports, d5

A feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

B feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

C feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

D feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

tradeoffs-143 | Level 5 | Answer A

Prompt. The nonprofit can send donation receipts within one day, which may increase donor retention. But the plan may help first-time donors while making another group's problem wait longer. Which statement best names the tradeoff?

A. It notices that helping one goal may leave less support for another goal. correct	B. Costs never matter if a plan has a benefit. choice
C. The main tradeoff is the unrelated detail: the receipt email subject line changed. choice	D. A tradeoff exists only when every option is equally bad and no option has any upside. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is A because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, nonprofit, d5

A feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

B feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

C feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

D feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

tradeoffs-144 | Level 5 | Answer B

Prompt. The warehouse can offer monthly lifting-safety and ergonomic training, which may reduce back-injury claims. But the plan may help warehouse staff while making another group's problem wait longer. Which statement best names the tradeoff?

A. Costs never matter if a plan has a benefit. choice	B. It names the hoped-for gain and the limit that makes the choice difficult. correct
C. A tradeoff exists only when every option is equally bad and no option has any upside. choice	D. The main tradeoff is the unrelated detail: the training room has a ceiling-mounted projector. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is B because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, workplace safety, d5

A feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

B feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

C feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

D feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

tradeoffs-145 | Level 5 | Answer C

Prompt. The city sanitation office can place compost bins in apartment lobbies, which may reduce landfill waste from participating buildings. But the plan may help apartment residents while making another group's problem wait longer. Which statement best names the tradeoff?

A. A tradeoff exists only when every option is equally bad and no option has any upside. choice	B. The main tradeoff is the unrelated detail: the lobby compost bins have foot pedals. choice
C. The gain people hope for is named along with the cost of getting it. correct	D. Costs never matter if a plan has a benefit. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is C because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, environment, d5

A feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

B feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

C feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

D feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

tradeoffs-146 | Level 5 | Answer D

Prompt. The app maker can make new user profiles private by default, which may reduce publicly visible profiles. But the plan may help new app users while making another group's problem wait longer. Which statement best names the tradeoff?

A. The main tradeoff is the unrelated detail: the privacy screen uses a shield icon. choice	B. Costs never matter if a plan has a benefit. choice
C. A tradeoff exists only when every option is equally bad and no option has any upside. choice	D. It asks whether the expected gain is worth the resources the plan would use. correct

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is D because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, technology, d5

A feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

B feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

C feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

D feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

tradeoffs-147 | Level 5 | Answer C

Prompt. The clinic can reserve same-day appointment slots, which may reduce patient no-show rates. But the plan may help primary-care patients while making another group's problem wait longer. Which statement best names the tradeoff?

A. A tradeoff exists only when every option is equally bad and no option has any upside. choice	B. The main tradeoff is the unrelated detail: the appointment cards are white. choice
C. The benefit matters, but the cost also has to be counted. correct	D. Costs never matter if a plan has a benefit. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is C because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, health, d5

A feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

B feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

C feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

D feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

tradeoffs-148 | Level 5 | Answer D

Prompt. The airline can board passengers by seat zone, which may reduce average boarding time. But the plan may help domestic flight passengers while making another group's problem wait longer. Which statement best names the tradeoff?

A. Costs never matter if a plan has a benefit. choice	B. A tradeoff exists only when every option is equally bad and no option has any upside. choice
C. The main tradeoff is the unrelated detail: the gate signs are backlit. choice	D. One group or need may benefit while another waits longer. correct

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is D because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, travel, d5

A feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

B feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

C feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

D feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

tradeoffs-149 | Level 5 | Answer C

Prompt. The landlord can launch an online apartment repair portal, which may reduce unresolved repair requests. But the plan may help apartment tenants while making another group's problem wait longer. Which statement best names the tradeoff?

A. A tradeoff exists only when every option is equally bad and no option has any upside. choice	B. Costs never matter if a plan has a benefit. choice
C. The upside and the resource limit are shown as the two sides of the tradeoff. correct	D. The main tradeoff is the unrelated detail: the repair portal uses a house logo. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is C because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, housing, d5

A feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

B feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

C feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

D feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

tradeoffs-150 | Level 5 | Answer A

Prompt. The cafeteria can move fruit bowls to the front of the cafeteria line, which may increase fruit purchases. But the plan may help middle-school students while making another group's problem wait longer. Which statement best names the tradeoff?

A. The possible improvement and the required cost are kept together. correct	B. A tradeoff exists only when every option is equally bad and no option has any upside. choice
C. The main tradeoff is the unrelated detail: the fruit bowls are ceramic. choice	D. Costs never matter if a plan has a benefit. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is A because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, food, d5

A feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

C feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

D feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

tradeoffs-151 | Level 5 | Answer B

Prompt. The call center can give support agents weekly script coaching, which may reduce customer complaint rates. But the plan may help support agents while making another group's problem wait longer. Which statement best names the tradeoff?

A. The main tradeoff is the unrelated detail: the coaching slides use blue headers. choice	B. The desired result and the required resources stay in the same decision. correct
C. A tradeoff exists only when every option is equally bad and no option has any upside. choice	D. Costs never matter if a plan has a benefit. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is B because it shows what is gained and what is given up, delayed, or risked.

Tags: tradeoffs, tradeoff, customer support, d5

A feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

B feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

C feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

D feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

tradeoffs-152 | Level 5 | Answer A

Prompt. The water utility can send automatic household water-leak alerts, which may reduce average household water use. But the plan may help local homeowners while making another group's problem wait longer. Which statement best names the tradeoff?

A. The upside and the downside are kept together instead of separated. correct	B. Costs never matter if a plan has a benefit. choice
C. The main tradeoff is the unrelated detail: the water-leak alert screen includes a blue droplet icon. choice	D. A tradeoff exists only when every option is equally bad and no option has any upside. choice

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is A because it shows what is gained and what is given up, delayed, or risked.

A feedback (Correct): Correct. This answer keeps both sides of the decision in view: what the plan might improve and what it would cost, delay, or risk.

B feedback (Distractor): Not quite. Costs are part of the tradeoff. A benefit can be real and still need to be weighed against what it uses up.

C feedback (Distractor): Not quite. A random visible detail is not the tradeoff. The tradeoff is between the plan's possible benefit and its cost or risk.

D feedback (Distractor): Not quite. A tradeoff does not require every option to be bad. It simply asks what is gained and what is given up.

tradeoffs-153 | Level 5 | Answer D

Prompt. The police department can send body-camera activation reminders before patrol shifts, which may reduce missing-camera-footage reports. But the plan may help patrol officers while making another group's problem wait longer. Which statement best names the tradeoff?

A. Costs never matter if a plan has a benefit. choice	B. A tradeoff exists only when every option is equally bad and no option has any upside. choice
C. The main tradeoff is the unrelated detail: the reminder tone is two beeps. choice	D. The possible help is real, but the answer also names what may be delayed. correct

Core explanation. A tradeoff compares what you gain with what you give up or risk.

Process commentary. To uncover the answer, hold the possible gain and the possible cost in the same sentence. The correct choice is D because it shows what is gained and what is given up, delayed, or risked.
